**Online Dating as A Strategic Game** Maurice Kwok-to Choi,Kwok-bun Chan,2013-12-03 Based on a study using online ethnography as the major research method this book explains why and how men in Hong Kong use QQ an online instant messenger to chase women in mainland China especially in the neighboring city of Shenzhen Chasing women through QQ is a reciprocal exchange process during which the resources to be exchanged in the interaction are not negotiated Rather the men provide resources to the women hoping for rewards in return that are not guaranteed This characteristic of the exchange makes men who chase women through QQ very strategic in their action They try to maximize the rewards and minimize the costs by adopting myriad strategies such as constructing an attractive online identity by strategic self presentation The role of emotions in the exchange process is also examined Men learn the emotional norms through the online forum but sometimes it is difficult for them to control their emotions some men fall in love when they are not supposed to As it happens they have failed to calculate the costs and rewards rationally in that they may provide too many resources to the women without getting enough rewards in return This book provides original insights into the thought processes motivations desires anxieties and risks of Hong Kong men seeking short term sexual relations with women on the mainland These insights are highly relevant to our understanding of the quickly evolving use of social media a phenomenon of worldwide importance and deep implications

**Farmers' Guide** ,1898 *A Hunter-Gatherer's Guide to the 21st Century*

Heather Heying,Bret Weinstein,2021-09-14 A bold provocative history of our species finds the roots of civilization s success and failure in our evolutionary biology We are living through the most prosperous age in all of human history yet people are more listless divided and miserable than ever Wealth and comfort are unparalleled and yet our political landscape grows ever

more toxic and rates of suicide loneliness and chronic illness continue to skyrocket How do we explain the gap between these two truths What's more what can we do to close it For evolutionary biologists Heather Heying and Bret Weinstein the cause of our woes is clear the modern world is out of sync with our ancient brains and bodies We evolved to live in clans but today most people don't even know their neighbors names Traditional gender roles once served a necessary evolutionary purpose but today we dismiss them as regressive The cognitive dissonance spawned by trying to live in a society we're not built for is killing us In this book Heying and Weinstein cut through the politically fraught discourse surrounding issues like sex gender diet parenting sleep education and more to outline a provocative science based worldview that will empower you to live a better wiser life They distill more than 20 years of research and first hand accounts from the most biodiverse ecosystems on Earth into straight forward principles and guidance for confronting our culture of hyper novelty
