Our Mothers Stories Chas Hartman:

Our Mothers' Stories Chas Hartman, 2015-12-11 There are two billion mothers in the world and 82.5 million of them live in the United States. Whether these women work outside the home, they all have an important place in our society. They have children to love, protect, educate, and take care of, and they have a truly amazing opportunity. In addition to being the one who gives birth to a child, mothers have a lifelong impact on how their children act, which goals they pursue in life, and how they treat others. It's a tremendous responsibility, but it's something mothers should never shy away from. Embrace the tremendous influence you can have on your child and make the most of the years you get with your child before he or she leaves home, goes to college, gets married, and has children of his or her own. The rest of this book presents a series of stories about mothers who endured tough circumstances, rescued their children, explored the world, and never failed to support their offspring. While you may have no personal connection to the mothers written about in this book, you will still find that these stories can be a source of inspiration. Perhaps the experiences described in this book will remind you of some of your own, and they may lead to you reminiscing about your own mother. Several people were interviewed for multiple hours over the course of many days for the material in this book. In every case, great attention was paid to ensuring the accuracy of the stories included in *Our Mothers' Stories*. Whether you're a mother, father, son, daughter, married, or single, there is something for everyone in this book.

This revised and expanded edition updates the original text in the wake of global Black uprisings in 2020 and offers new insights on how to build liveable futures without policing. Delving behind Canada's veneer of multiculturalism and tolerance, award-winning scholar and activist Robyn Maynard traces the afterlives of slavery across multiple institutions. Maynard sheds light on the state's role in perpetuating colonial dispossession, racial profiling, police killings, incarceration, immigration detention, deportation, exploitative migrant labour practices, disproportionate child removal, and the school-to-prison pipeline, as well as the ubiquity of Black resistance. The first new chapter meticulously documents how half a century of police reforms have served to undermine Black freedom.
