**Reading, Publishing and the Formation of Literary Taste in England, 1880-1914** Mary Hammond, 2017-05-15

Between 1880 and 1914 England saw the emergence of an unprecedented range of new literary forms from Modernism to the popular thriller. Not coincidentally this period also marked the first overt references to an art market divide through which books took on new significance as markers of taste and class. Though this division has received considerable attention relative to the narrative structures of the period's texts, little attention has been paid to the institutions and ideologies that largely determined a text's accessibility and circulated format and thus its mode of address to specific readerships. Hammond addresses this gap in scholarship asking the following key questions: How did publishing and distribution practices influence reader choice? Who decided whether or not a book was a classic? In a patriarchal class-bound literary field, how were the symbolic positions of author and reader affected by the increasing numbers of women who not only bought and borrowed but also wrote novels? Using hitherto unexamined archive material and focussing in detail on the working practices of publishers and distributors such as Oxford University Press and W H Smith and Sons, Hammond combines the methodologies of sociology, literary studies and book history to make an original and important contribution to our understanding of the cultural dynamics and rhetorics of the fin de siècle literary field in England. *The Book World* Nicola Louise

Wilson, 2016-05-18 British literature underwent profound changes in the period 1900-1940. What role did audiences and channels of book distribution play in this? In this wide-ranging collection, the influence of publishers, distributors, librarians and readers come to the foreground to open up new perspectives on literature and print culture. Rooted in original archival research, chapters include studies of the engagement of canonical writers and bestsellers with the literary marketplace, the influence of international and mobile audiences, publishing practices involving genre promotion and censorship, and the significance of spaces of reading including bookshops, circulating libraries and on-board passenger ships. Through a series of detailed case studies that focus on under-explored aspects of distribution and readership, the contributors open up new perspectives on literature and the British book trade. *House documents*, 1891 *Black Holes* / J. Hillis Miller; or, *Boustrophedonic Reading* Joseph Hillis Miller, Manuel Asensi, 1999 J Hillis Miller's text deals mainly with Anthony Trollope's Ayala's angel and Marcel Proust's *A la recherche du temps perdu*. *Our World Reader* Mary Lucy Hall, 2015-08-08 Excerpt from *Our World Reader* Being a Rev Ed of *Our World*. **The Athenaeum** ,1899      **Asian Classics on the Victorian Bookshelf** Alexander Bubb,2023-03-14 The interest among Victorian readers in classical literature from Asia has been greatly underestimated The popularity of the Arabian Nights and The Rubaiyat of Omar Khayyam is well documented Yet this was also an era in which freethinkers consulted the Quran in which schoolchildren were given abridgements of the Ramayana to read in which names like Kalidasa and Firdusi were carved on the fa ades of public libraries and in which women s book clubs discussed Japanese poetry But for the most part such readers were not consulting the specialist publications of scholarly orientalists What then were the translations that catalysed these intercultural encounters Based on a unique methodology marrying translation theory with empirical techniques developed by historians of reading this book shines light for the first time on the numerous amateur translators or popularizers who were responsible for making these texts accessible and disseminating them to the Victorian general readership Asian Classics on the Victorian Bookshelf explains the process whereby popular translations were written published distributed to bookshops and libraries and ultimately consumed by readers It uses the working papers and correspondence of popularizers to demonstrate their techniques and motivations while the responses of contemporary readers are traced through the pencil marginalia they left behind in dozens of original copies In spite of their typically limited knowledge of source languages Asian Classics argues that popularizers produced versions more respectful of the complexity cultural difference and fundamental untranslatability of Asian texts than the professional orientalists whose work they were often adapting The responses of their readers likewise frequently deviated from interpretive norms and it is proposed that this combination of eccentric translators and unorthodox readers triggered flights of translation whereby historical individuals can be seen to escape the hegemony of orientalist forms of knowledge      **Journal of Education** ,1884      The Classical Outlook ,1887      The classical review ,1892      *The Publishers Weekly* ,1889      Ancient Classics for English Readers William Lucas Collins,1884
