Puar,2017-10-11 In [The Right to Maim](#) Jasbir K Puar brings her pathbreaking work on the liberal state sexuality and biopolitics to bear on our understanding of disability Drawing on a stunning array of theoretical and methodological frameworks Puar uses the concept of debility bodily injury and social exclusion brought on by economic and political factors to disrupt the category of disability She shows how debility disability and capacity together constitute an assemblage that states use to control populations Puar s analysis culminates in an interrogation of Israel s policies toward Palestine in which she outlines how Israel brings Palestinians into biopolitical being by designating them available for injury Supplementing its right to kill with what Puar calls the right to maim the Israeli state relies on liberal frameworks of disability to obscure and enable the mass debilitation of Palestinian bodies Tracing disability s interaction with debility and capacity Puar offers a brilliant rethinking of Foucauldian biopolitics while showing how disability functions at the intersection of imperialism and racialized capital

[Football in the Middle East](#) Abdullah Al-Arian,2022-08-10 Far and away the most popular sport in the world football has a special place in Middle Eastern societies and for Middle Eastern states With Qatar hosting the 2022 FIFA World Cup this region has been cast into the global footballing spotlight raising issues of geopolitical competition consumer culture and social justice Taking an interdisciplinary approach this book examines the complex questions raised by the

phenomenon of football as a significant cultural force in the Middle East as well as its linkages to broader political and socioeconomic processes. The establishment of football as a national sport offers significant insight into the region's historical experiences with colonialism and struggles for independence as well as the sport's vital role in local and regional politics today whether at the forefront of popular mobilisations or as an instrument of authoritarian control. Football has also served as an arena of contestation in the formation of national identity, the struggle for gender equality and the development of the media landscape. The twelve contributions to this volume draw on extensive engagement with the existing body of literature and introduce original research questions that promise to open new directions for the study of football in the Middle East.

The four chapters highlight the achievements and constraints on the development of Indo Iranian relations during the Cold War era, opportunities and limitations in bilateral engagements between India and Iran in the aftermath of the Cold War, impact of the US factor on the development of crucial Indo Iranian energy ties and the limitation imposed by India's relations with Israel and Saudi Arabia on the India Iran ties. More specifically the four chapters touch on the central drivers, energy imports, access to Central Asia, cooperation in Afghanistan, mutual trade and economic investments and security ties of India's Iran policy and how they structure India's interaction with the other countries of the region and impact on the articulation of national interests. **Turkey's Pivot to Eurasia** Emre Erşen, Seçkin Köstem, 2019-05-21 This book discusses and analyses the dimensions of Turkey's strategic rapprochement with the Eurasian states and institutions since the deterioration of Ankara's relations with its traditional NATO allies. Do these developments signify a major strategic reorientation in Turkish foreign policy? Is Eurasia becoming an alternative geopolitical concept to Europe or the West? Or is this pivot to Eurasia an instrument of the current Turkish government to obtain greater diplomatic leverage? Engaging with these key questions, the contributors explore the geographical, political, economic, military and social dynamics that influence this process while addressing the questions that arise from the difficulties in reconciling Ankara's strategic priorities with

those of other Eurasian countries like Russia China Iran and India Chapters focus on the different aspects of Turkey s improving bilateral relations with the Eurasian states and institutions and consider the possibility of developing a convincing Eurasian alternative for Turkish foreign policy The book will be useful for researchers in the fields of politics and IR more broadly and particularly relevant for scholars and students researching Turkish foreign policy and the geopolitics of Eurasia
