## Over Het Westers Marxisme:

Historical Materialism and Globalisation Mark Rupert,Hazel Smith,2016-04-29 Now that Soviet style socialism has collapsed upon itself and liberal capitalism offers itself as the natural necessary and absolute condition of human social life on a worldwide scale this book insists that the potentially emancipatory resources of a renewed and perhaps reconstructed historical materialism are more relevant in today s world than ever before Rather than viewing global capitalism as an eluctable natural force these essays seek to show how a dialectic of power and resistance is at work in the contemporary global political economy producing and contesting new realities and creating conditions in which new forms of collective self determination become thinkable and materially possible It will be vital topical reading for anyone interested in international relations international political economy sociology and political theory

Theoretical Engagements in Geopolitical Economy Radhika Desai,2015-09-22 This two part volume paves the way advancing Geopolitical Economy as a new approach to the study of international relations and international political economy They expose the theoretical limitations of the latter in Part I and the analytical limitations in Part II

**Ernest Mandel** Jan Willem Stutje,2020-05-05 Ernest Mandel 1923 1995 was one of the most prominent anti Stalinist Marxist intellectuals of his time A political theorist and economist his worldview was shaped by experiences in the Second World War as an underground political activist in Occupied Belgium and during his subsequent internment in a Nazi prison camp Mandel s faith in human nature and in the working classes survived Nazi oppression and the murder of much of his family in the concentration camps He retained his connection to his Jewish roots throughout his life but believed that security and liberation for the Jewish people was best achieved through world revolution and universal emancipation rather than nationalism A brilliant orator in several languages Mandel was an indefatigable revolutionary militant and a key leader in the Fourth International and he had an enormous impact on the thought and practice of the 1968 generation His writings range from innovative economic and political theory to a study of the Second World War and have been published in over forty languages His last major work Late Capitalism had an influence that reached from the social sciences into the humanities Biographer Jan Willem Stutje the first writer with access to Mandel s archives has interviewed many of the leading figures in the story and unearthed a wealth of new material detailing Mandel s arrest by the Nazis and his role in Latin American guerrilla warfare He recounts Mandel s interactions with both scholars Sartre Ernst Bloch Perry Anderson and comrades in arms such as Che Guevara Rudi Dutschke and Tariq Ali The book also yields fascinating details of the man s sometimes tragic private life

On the Road to Global Labour History ,2017-09-18 Global Labour History is a latecomer to historical science It has only developed in the last three decades This anthology provides a comprehensive overview of the state of the art Prominent representatives of the discipline discuss its fundamental methodological and conceptual aspects In addition the volume contains field and case studies from Africa and Latin America as well as from the Middle East and China In these studies the local regional and continental constitutive processes of the

working class are discussed from a global historical perspective The anthology has been composed as a Festschrift dedicated to Marcel van der Linden the leading theoretician of and networker for Global Labour History *Krisis en konfessie, ideologie in katholiek Nederland 1917-1933* Theodorus Albertus Maria Salemink,1980 Marxism, Communism, and Western Society: Absolutism Claus Dieter Kernig,1972 **Power and Money** Ernest Mandel,1992-06-17 Analyses of bureaucratic power and privilege have an academic pedigree but have also long preoccupied socialists The collapse of communist rule in the Soviet Union and Eastern Europe puts to a new test the classical theories concerning the relationship between bureaucracy and class Power and Money is a timely contribution to this renewal of theory exploring the social and historical roots of bureaucracy both within the capitalist state and in workers mass organizations Ernest Mandel draws on archival and contemporary accounts in an analysis of both capitalist administration and the ideology and practice of bureaucratic dictatorship in the communist bloc He measures the actual performance of western and eastern societies against the forecasts of Lenin and Trotsky Ludwig von Mises and Roberto Michels or the more recent reflections of Amitai Etzioni and Alvin Gouldner This lucid study challenges those theories Stalinist Weberian or social democratic which claim that an autonomous officialdom is a necessary feature of modern societies It also furnishes a perceptive account of the specific dynamics of communist and post communist society **Consensual model of democracy, fundamental documentation, 1969-1986** ,2007 **Consensual Model of Democracy: 1967-1997** ,2007 **Voorbij de ideologie?**

,1991 Beschouwingen over ontwikkelingen in de geschiedenis Marxism, Communism, and Western Society Claus Dieter Kernig,1973 *Marxism, Communism, and Western Society: Kautsky* Claus Dieter Kernig,1973 **The Ideas of Leon Trotsky** Hillel Ticktin,Michael Cox,1995 As its first and most daring theorist and later its most penetrating left wing critic Leon Trotsky will for ever be associated with the fate of the Russian Revolution Yet little of real substance has ever been written about his genuine but unfinished contribution to Marxist thought in the twentieth century This volume seeks to fill that vacuum through a critical assessment of his views on political economy the party revolution philosophy and culture This book also contains a number of brief but incisive essays on the turbulent history of the Left Opposition as well as a lively and iconoclastic discussion of the way his ideas have been interpreted and misinterpreted by both friends and enemies alike The last section of the volume brings to the English speaking world previously untranslated material by Trotsky on his mature reflections on the world economy in the interwar period Neither crude polemic nor simple minded hagiography The Ideas of Leon Trotsky fills a major gap in our understanding of one of the most controversial thinkers of our age **BOOK JACKET** Title Summary field provided by Blackwell North America Inc All Rights Reserved **De filosofie van Leuven** C.
