Over The American Landscape At The Tipping Point:

Over Alex MacLean, 2008-10 A collection of 250 full color aerial photographs of the American landscape captures the complex interrelationship between the natural and constructed environments the impact of the American lifestyle on the environment and the consequences of both natural processes and human intervention Contested Architectural Pasts and Futures of a Regional City, Geelong, Australia Mirjana Lozanovska, Ursula de Jong, 2024-10-03 This collection of essays highlights current debates for cities undergoing urban renewal focussing on regional cities as places that lead change Like many regional cities Geelong is grappling with the legacy of its industrial architectural heritage and identity This in depth study of the city of Geelong examines theories and realities from the speculative to the mundane critical to change pre-empted by deindustrialisation While this book argues that architecture and the built environment are key to urban renewal an intersectional perspective on Geelong as a place raises contested pasts and territories This brings attention to the dispossession of First Nations people by British colonisers as well as the exploitation of immigrant communities in industrial production Informed by positions on design futures decolonising and cultural urbanisms adaptive re use and the post industrial city the chapters in this book expand an interdisciplinary field relevant to scholars and practitioners in heritage and conservation urban design community engagement and place making more generally Institutions under Siege John L. Campbell, 2022-12-22 This book shows how former President Donald Trump's attack on the deep state severely damaged America's political institutions **Resilience and Riverine Landscapes** Martin Thoms, Ian Fuller, 2023-11-28 Resilience and Riverine Landscapes presents contributed chapters from global experts in Riverine Landscapes making it the most comprehensive reference available on the topic The book explores why rivers are ideal landscapes to study resilience and why studying rivers from a resilience perspective is important for our biophysical understanding of these landscapes and for society The book focuses on the biophysical character of resilience in riverine landscapes providing an interdisciplinary perspective of the structure function and interactions of riverine landscapes and the ecosystems they contain The editors conclude by proposing a research agenda for the future emphasizing the need for transdisciplinary research across a range of spatial and temporal scales and research domains Presents the resilience of rivers with both a theoretical and applied focus Includes case studies from a wide geographical base allowing for a full range of viewpoints Showcases how resilience is being incorporated into the study and management of riverine landscapes Includes a transdisciplinary focus on riverine landscapes from theory to applied and from biophysical to social ecological systems **Dempsey and Tunney in the Roaring Twenties** Lew Freedman, 2025-09-26 Jack Dempsey and Gene Tunney were among the most revered and popular heavyweight champions in the history of boxing Rising to prominence during the 1920s they became known as the most significant fighters of a rip roaring wide open decade in American life Twice they met in the ring in hugely anticipated and closely watched encounters One bout included the so called Long Count perhaps the most memorable round in boxing history

Both men's fame endured in retirement and even today nearly a century after their contests their rivalry is among the best remembered and most talked about in the history of the sport This history of one of boxing's most compelling rivalries is illustrated with photographs from the era capturing the spirit of America's most exhilarating decade [Open and Distance Education in Australia, Europe and the Americas](#) Adnan Qayyum, Olaf Zawacki-Richter, 2018-06-26 This book is open access under a CC BY 4.0 license This book describes the history structure and institutions of open and distance education in six countries Australia Brazil Canada Germany the UK and the US It discusses how open and distance education is evolving in a digital age to reflect the needs and circumstances of national higher education systems in these countries and explores the similarities and differences between the ways in which they are organized and structured It is the first book to make such comparisons and draw conclusions about the nature of open and distance education in the context of various national higher education systems In a digital era with growing use of online education as well as open and distance education this book is particularly useful for policy makers and senior administrators who want to learn about organizing and expanding open and distance education provision It is also a valuable reference for researchers academics and students interested in understanding the different approaches to open and distance education

The Shriver Report: A Woman's Nation Changes Everything Maria Shriver, 2009-10-20 When we look back over the 20th century and try to understand what's happened to workers and their families and the challenges they now face the movement of women out of the home and into paid employment stands out as a unique and powerful transformation At one level everything has changed And yet so much more change is needed Even though we were all witness to the shift of women becoming equal or primary breadwinners over many years these changes seem somehow to have snuck up on us As a result our policy landscape remains stuck in an idealized past where the typical family was composed of a married for life couple with a full time breadwinner and full time homemaker who raised the children herself This report contemplates what a new America should look like after we finally embrace this important new dynamic in our lives and the changes in our homes and businesses it has caused It examines every institution including Health Care Health care and child care must be overhauled to accommodate the 24 hour work day Education With more women acting as equal or primary breadwinners in the family it is critical that there are resources to provide better and up to date education for all ages Business Research shows that corporations with more women in the board room are more successful than those with all male boards With that in mind the report puts forth many recommendations to allow businesses to get the best out of all employees by thinking outside the box of old fashioned models in scheduling benefits and role playing Media The disconnect between how women are portrayed in the media and reality is as present as ever although women are now portrayed as thin well dressed successful stars in their careers and home lives the reality is that women still struggle to have it all The report highlights the many disparities that still exist and calls for specific changes Faith Many religious institutions have resisted the integration of women into the higher ranks of spirituality

and many feel that it is to the religious community's detriment. Marriage: the dynamics of marriage have changed as gender roles have become less clear and there is more flexibility in the division of responsibilities. Yet no one is sure what the rules are any more. This section, which includes candid essays from men about fatherhood and masculinity, addresses the tricky balancing act that many couples are engaged in. The report will be the cornerstone of the 2009 Women's Conference held in California, October 26-27th of 2009. The Women's Conference is the nation's premier forum for women and is hosted by California First Lady Maria Shriver and Governor Arnold Schwarzenegger. The Conference, also known as The California Governor and First Lady's Conference on Women, has grown from a California initiative for working professionals into an international network of women from all walks of life, backgrounds and perspectives, and a life-changing experience for the thousands of women who have attended. The mission of The Women's Conference is to inspire, empower and educate women to be Architects of Change in their own lives and in the lives of others. Photograph, 2009 Global Ideologies and Urban Landscapes Manfred Steger, Anne McNevin, 2013-09-13 How do political ideologies and urban landscapes intersect in the context of globalization? This volume illuminates the production of ideologies as both discursive and spatial phenomena in distinct contributions that ground their analysis in cities of the Global North and South. From Sydney to Singapore, Hong Kong to Hanoi, Las Vegas to Macau, conventional public spaces are in decline as sites of ideological dissent. Instead, we are witnessing the colonisation of urban space by market globalism, today's dominant global ideology, and securitised surveillance regimes. Against this backdrop, how should we interpret the proliferation of metaphors that claim to communicate the essence of global transformation? In what ways do space and language work together to normalise the truth claims of powerful ideological players? What kinds of social forces mobilise to contest the cooptation of language and space and to pose alternative local and global futures? This volume poses these questions against the collapse of old geographical scales and cartographic techniques for identifying the contours of civil society. The city acts as an entry point to a new spatial analytics of contemporary ideological forces. This book was published as a special issue of *Globalizations*.
