Victims of Ireland's Great Famine Jonny Geber, 2016 The Great Famine 1845-1852 is a watershed in Irish history. With one million dead and just as many forced to flee hunger, starvation and disease, Ireland's Great Hunger is among the worst famines in human history. In 2006 a mass burial ground containing the skeletal remains of nearly 1,000 of its victims was found on the grounds of the former Kilkenny Union Workhouse. This book presents bioarchaeological analysis of these findings along with historical research on the burial ground and the people buried within it.

Victims of Ireland's Great Famine Jonny Geber, Clark Spencer Larsen, 2015 With one million dead and just as many forced to emigrate, the Irish Famine 1845-52 is among the worst health calamities in history. In 2006 archaeologists discovered a mass burial containing the remains of nearly 1,000 Kilkenny Union workhouse inmates. In the first bioarchaeological study of Great Famine victims, Jonny Geber uses skeletal analysis to tell the story of how and why the Irish Famine decimated the lowest levels of nineteenth century society. By examining the physical conditions of the inmates that might have contributed to their institutionalization as well as to the resulting health consequences, Geber sheds new and unprecedented light on Ireland's Great Hunger.

Famine Echoes - Folk Memories of the Great Irish Famine Cathal

Poirteir, 1995-09-01 Famine Echoes is a groundbreaking oral account of the Great Irish Potato Famine of 1845-52 telling the stories of its victims for the first time ever in their own words and those of their descendants. When the potato crop failed, no other food was available and the people perished by the hundreds of thousands along the roadside in the ditches in the fields from hunger and cold and what was even worse the famine fever. The strongest men were reduced to mere skeletons and they could be met daily with the clothes hanging on them like ghosts. The Great Irish Famine is the greatest tragedy in Irish history. Over one million people died and nearly two million emigrated as a result. Famine Echoes gives a voice to its victims offering a unique perspective on the Great Hunger, the defining event of modern Irish history. In Famine Echoes, descendants of Famine survivors recall the community memories of the great hunger in their own words conveying like never before the heartbreak and horrors their relatives experienced. This remarkable book, a seminal record of the oral transmission of folk memory, is a record of the last living link with the survivors of Ireland's most devastating historical event. In the 1940s the Folklore Commission conducted interviews with thousands of elderly people around Ireland who remembered what they themselves had heard from ancestors who had survived the Famine. Cathal Poirteir has edited a selection of these recollections, arranging the material in an order which follows the rough chronology of the Famine itself. Famine Echoes is published to coincide with the RTÉ Radio series of the same name.

comprehensive information on the history leading up to the Irish potato famine presents accounts of narrow escapes and discusses the legacy of the event Provided by publisher **Northern Ireland Online: The Great Famine** , Northern Ireland Online offers a collection of Internet resources related to the Great Famine also known as the Irish famine 1845 1851 in Ireland Details are provided on memorials views of the famine and more **The Great Famine** Charles River Charles River Editors,2016-07-12 Includes pictures Includes accounts of the famine by Irishmen who suffered through it Includes online resources and a bibliography for further reading Includes a table of contents I have called it an artificial famine that is to say it was a famine which desolated a rich and fertile island that produced every year abundance and superabundance to sustain all her people and many more The English indeed call the famine a dispensation of Providence and ascribe it entirely to the blight on potatoes But potatoes failed in like manner all over Europe yet there was no famine save in Ireland John Mitchel Young Ireland Movement Anyone who has ever heard of the luck of the Irish knows that it is not something to wish on someone for few people in the British Isles have ever suffered as the Irish have As one commissioner looking into the situation in Ireland wrote in February 1845 It would be impossible adequately to describe the privations which they habitually and silently endure in many districts their only food is the potato their only beverage water their cabins are seldom a protection against the weather a bed or a blanket is a rare luxury and nearly in all their pig and a manure heap constitute their only property Even his fellow commissioners agreed and expressed our strong sense of the patient endurance which the laboring classes have exhibited under sufferings greater we believe than the people of any other country in Europe have to sustain Still in their long history of suffering nothing was ever so terrible as what the Irish endured during the Great Potato Famine that struck the country in the 1840s and produced massive upheaval for several years While countless numbers of Irish starved the famine also compelled many to leave and all the while the British were exporting enough food from Ireland on a daily basis to prevent the starvation Over the course of 10 years the population of Ireland decreased by about 1 5 million people and taken together these facts have led to charges as severe as genocide At the least it indicated a British desire to remake Ireland in a new mold As historian Christine Kinealy noted As the Famine progressed it became apparent that the government was using its information not merely to help it formulate its relief policies but also as an opportunity to facilitate various long desired changes within Ireland These included population control and the consolidation of property through various means including emigration Despite the overwhelming evidence of prolonged distress caused by successive years of potato blight the underlying philosophy of the relief efforts was that they should be kept to a minimalist level in fact they actually decreased as the Famine progressed Although the Famine obviously weakened Ireland and its people it also stiffened Irish resolve and helped propel independence movements in its wake By the time the Famine was over it had changed the face of not just Ireland but also Great Britain and it had even made its effects felt across the Atlantic in the still young United States of America The Great Famine The History of the Irish Potato Famine during the Mid 19th Century looks at the history

MacRaild,Lewis Darwen,Brian Gurrin,2023-01-10 The Great Irish Famine claimed the lives of one million people mainly from the lower classes More than a million others fled the stricken land between 1845 and 1851 In recent decades its history has become the focus of considerable scholarly and popular attention but much remains to be retrieved and reconstructed particularly at the level of the rural poor This book fills that gap It is based on a large volume of reports on social conditions in the Irish localities emanating from within those localities that has never been used systematically by historians It bears the compelling title of the Death Census Most historians are simply unaware of its existence The outstanding feature of the Death Census is that it was authored by local clergymen who lived among the people they served and were intimately involved with their lives This book brings the Death Census together in composite form for the first time and provides a detailed examination of its contents The result is new understanding of the Great Famine as it was experienced on the ground **The Irish Famine** Helen Litton,1994 *The Great Famine. Cataclysm for the Transformation of Ireland* Sonja Wendel,2013-07-04 Seminar paper from the year 2010 in the subject History of Europe Modern Times Absolutism Industrialization grade 10 National University of Ireland Maynooth History Dept course Irish History language English abstract Historical research moved away from dramatic Irish politics towards a rather social and cultural focus Studies in the field of history to my opinion are studies about humanity and emotions and not just about elected data and research It is evident that the Great Famine and its data are an important issue within Irish history Although this experience was a touchstone for Irish people as Murphy also stated Irish economic history in the nineteenth century was about food and land Clearly the most important event of the century as

far as people's lives were concerned was the cataclysm of the Famine in the 1840s Murphy 2003 9 it was just one and not the only reason for the changes of and within Ireland This essay aims to outline and describe in what ways and to which extent the Famine initiated the Irish transformation
