Peace Social Justice Education Campus:

Peace and Social Justice Education on Campus Luigi Esposito, Kelly Concannon Mannise, 2015-10-28 This book provides important reflections by and for peace and social justice educators working on college campuses. Importantly, it also integrates the voices of students. More than a feel good compilation of success stories, however, it illustrates the complexities inherent in teaching and learning about and for peace and social justice. Chapters in the book provide critical assessments of institutions, pedagogies, and practices, making visible the messy but very real spaces in which education and learning occur. Written by faculty and students from many disciplinary areas, the contributions discuss in-class and out-of-class actions, providing a deeper understanding of best practices and challenges faced by both groups. Albeit in different ways, that are reflective of the many different pedagogical approaches to peace and justice education, each chapter integrates ideas, concepts, and reflections from both faculty and students. The conclusion and appendix offer recommendations for future and additional resources for college and university faculty and students interested in learning more about peace and social justice.

Peace Studies between Tradition and Innovation Randall Amster, Edmund Pries, 2015-02-05 The field of peace and conflict studies is rich in secular and faith traditions. At the same time, as a relatively new and interdisciplinary field, it is ripe with innovation. This volume, the first in the series *Peace Studies Edges and Innovations* edited by Michael Minch and Laura Finley of the Peace and Justice Studies Association (PJSA), is edited by top Canadian and US scholars in the field and captures both those traditions and innovations, focusing on enduring questions, organizing and activism, peace pedagogy, and practical applications. From the historical focus on disarmament, ending warfare, and reducing militarism to the civil rights, women's rights, and environmental movements, peace activists and pedagogues have long been important agents of social change. Authored by US and Canadian academics, educators, and activists, the chapters in this book demonstrate how scholars and practitioners in the field are using the important knowledge, skills, and values of their foremothers and forefathers to address new issues, integrate new
