

Why Did Japan Attack Pearl Harbor?

Overview: On December 7, 1941, Japanese planes and submarines made a surprise attack on the United States at Pearl Harbor, Hawaii. The following day, after President Roosevelt's impassioned speech, Congress declared war on Japan. It marked the beginning of America's direct involvement in World War II. Hazuka,NAVAL WAR COLL NEWPORT RI.,Naval War College,1993 This paper is an analysis of the Pearl Harbor attack from a operational level of war perspective Its purpose is to provide the reader with a Japanese viewpoint of the Pearl Harbor operation and to determine if there were weaknesses with the plan and its execution The study is limited in scope in that it will focus primarily on a single operation of the Pacific campaign initiated by the Japanese Much has been written about the devastation inflicted upon U S forces by Japan on 7 December 1941 Research initiated for this paper concludes that although the execution of the Pearl Harbor operation was successful the operation did not achieve its strategic aim A mismatch existed between operational and strategic objectives which was partially attributed to flaws in

target selection priority and tactical level decision making during execution Japan's narrow objective of destroying primarily capital ships spared important logistical facilities from destruction. These support facilities proved to be the key to a quick restoration of U.S. naval presence in the region. Likewise, Japan's emphasis on placing a higher target priority for battleships versus carriers allowed a more potent weapon system to essentially escape unscathed. This mistake had strategic implications in that aircraft carriers were the key weapon's platform used to destroy the Japanese Navy in later battles in the Pacific. Finally, the tactical commander's failure to exploit America's military forces at its most vulnerable point minimized further damage which could have been inflicted upon the U.S. Pacific Fleet anchored at Pearl Harbor.

Pearl Harbor Clayton K. S. Chun, Carl Smith, David Aiken, 2006 **Pearl Harbor Declassified** James M. D'Angelo, 2021-07-26 Did President Roosevelt and other high ranking U.S. government officials know about Japanese plans to attack Pearl Harbor and fail to warn U.S. Navy leadership? Drawing on recently declassified materials and revelations from other writers this book traces the flow of intelligence and concludes the imminent attack was allowed to happen to win the support of the American public in a war against Japan. An epilogue describes the fate of Commander in Chief of the U.S. Pacific Fleet Admiral Husband E. Kimmel the intelligence he received from Washington before the attack and the intelligence he did not.
