Readers Front & Center Dorothy J. Barnhouse,2014 Every teacher wants and expects his or her students to be reading increasingly complex texts yet sometimes the gap between our expectations and our students abilities seems wide and deep It s tempting to look at that gap and step in to fill it for them but then we d be doing most of the heavy lifting the understanding analysis and interpretation that our students should be learning for themselves So how can teachers reverse this trend and ensure that our students are fully entering absorbing and experiencing texts How can we make sure they re making complex meaning independently and proficiently as the Common Core State Standards require Readers Front Center answers these questions by framing instruction that starts with the student You ll learn how to do the following Research and listen to your students so your teaching can be more targeted Notice and name your students thinking so they can see what complex thinking looks and sounds like Set your students up to be problem solvers Prepare your students to do increasingly complex thinking in increasingly complex texts Filled with examples of one on one conferences small groups and whole class scenarios this essential book provides an accessible and inspiring model of how and why we need to put students at the front and center of our teaching **Data and Teaching** Joseph P. McDonald,Nora M. Isacoff,Dana Karin,2018 Drawing on their research in nine of New York City s most poverty impacted schools the authors dive deep into school systems and routines as well as into teachers practices and students experiences They also zoom out to capture the larger currents that have made this school reform strategy so prominent today Each chapter includes a discussion of a new direction that schools and teachers can take to ensure that data use in teaching actually spurs growth in learning This resource extracts lessons from both chaotic and productive data implementation in order to inform practice and fulfill hopes for better schooling richer teaching and deeper learning A detailed and fascinating account of how distributive leadership collaboration and professional learning can greatly and positively influence teachers effective use of data Randi Weingarten president American Federation of Teachers Data and Teaching offers a rare and subtle blend of generous witnessing discerning analysis and practical directives for educational innovation and improvement Sara Lawrence Lightfoot professor Harvard University Essential reading for anyone committed to improving teaching as either a practical or an intellectual matter James Spillane professor Northwestern University Finally a book on using data to improve schools that goes beyond a theoretical framework and explores what really happens when teachers try to do this work Every school and district should read it Ron Berger EL Education Closeness in Student-Teacher Relationships Clio Stearns,2025-12-15 Closeness in Student Teacher Relationships centers children s perspectives on closeness in the classroom while giving teachers questions they can consider toward cultivating more mutually affirming social and emotional dynamics Despite many educators best efforts today s norms around relationship development can be excessively adult first and inattentive to the wishes needs and desires of school age children This book looks beyond prescriptive methods for relationship development by modeling accessible practices for

internal reflective work and deepened considerations of childhood agency and social power imbalances Using firsthand observations and interviews in schools relevant autobiographical perspectives and a thorough yet accessible evidence base author Clio Stearns prepares in service teachers to explore their own vulnerabilities and challenge the prevailing notions of adulthood as a fixed state of knowledge and authority   *Gr. 5* Lectorum Staff,2014-10-01 With a combination of informational texts and fiction titles this set offers reading selections for the different modules of the ReadyGEN Fifth Grade Language Arts Program   *Gr. 3* Lectorum Staff,2014-10-01 With a combination of informational texts and fiction titles this set offers reading selections for the different modules of the ReadyGEN Third Grade Language Arts Program   Gr. 1 Lectorum Staff,2014-10-01 With a combination of informational texts and fiction titles this set offers reading selections for the different modules of the ReadyGEN First Grade Language Arts Program   Gr.
