Peasant Society Princeton Legacy Library:

The Natural Environment in Late Byzantine Correspondence Kalliope Mavrommati, 2025-10-10 This book investigates environmental issues traced through the epistolography of the late Byzantine period which spans roughly the end of the twelfth century to the mid fifteenth century The book s overarching goal is to shed light on the complex ways in which the Byzantines conceptualised their connection to the natural world both in broad strokes and in finer granularity and to provide a general understanding of societal dependence on the environment It offers further details of this relationship by drawing on a wide variety of literary sources as well as archaeological and environmental data

The Negro Family in British Guiana Raymond T. Smith, 2013-08-21 This is Volume IX of eighteen in a collection on the Sociology of Development Originally published in 1956 and using language of the time this monologue looks at the family system in Guianese families

Caste in a Peasant Society Melvin Marvin Tumin, 2015-12-08 An important contribution to our cumulative knowledge of castes based on a case study of the pueblo of San Luis Jilotepeque about ninety miles from Guatemala City in Central America Much of the fascination of the book derives from the intrinsic interest of the material itself its exotic locale and its broader significance for other parts of Latin America

The Annals Originally published in 1952 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905

Archeology of Intangible Heritage Francisco Vaz da Silva, 2008 It is remarkable how often we consider certain constructs in other peoples worldview to be myths while in our own case we regard equally arbitrary assumptions as inherent to the nature of things As every anthropologist knows one s most cherished cultural assumptions tend to remain implicit in other words worldview is largely unconscious This book explores the possibility of plumbing obscure aspects of one s own culture in order to assess what some might call regarding other cultures the mythic underpinnings of worldview Seven explorations in folklore and ethnography exhume a conceptual heritage that still influences perception albeit in unconscious ways This archeology of intangible heritage provides the sort of break in intellectual routine that allows us to look anew at familiar things

Peasant Society in the Late Byzantine Empire Angeliki E. Laiou-Thomadakis, 2019-03-12 This book applies scientific demographic methods to the study of Byzantine peasantry in a period of feudalization The author shows that the number of peasants declined in the fourteenth and fifteenth centuries for reasons that had less to do with catastrophes than with internal social developments Her book makes the first thorough analysis of this rural society and one that draws on all available sources It focuses on village structure and family or kinship groups as well as social and demographic trends Angeliki Laiou Thomadakis is Professor of History at Rutgers University and the author of *Constantinople and the Latins*
