Team Players Mark Murphy, 2025-10-07 The New York Times bestselling author of Hundred Percenters and Hiring for Attitude shows you how to build the most successful team The conventional wisdom is wrong about how great teams are built

Effective leaders worry less about cohesion and more about assembling the right group of people with complementary talents and personalities. No amount of teambuilding trust or cohesion can overcome having the wrong mix of people in the room. In Team Players Mark Murphy argues that the best teams contain an ideal mix of five vital roles: Director, Achiever, Stabilizer, Harmonizer, and Trailblazer. Murphy's groundbreaking research shows how to unlock each team member's talents and position them to succeed within the team. Murphy reveals how unlocking the Directors, Achievers, Stabilizers, Harmonizers, and Trailblazers on your team solves teams absence of accountability, the torment of aimless meetings, the unfairness of uneven workloads, the scarcity of active participation, the chaos of clashing agendas, and the dearth of decisiveness. With a balance of hard hitting research and compelling real world examples, this book is a pivotal read for anyone keen on accelerating team development while allowing individual brilliance to shine through.

Commissioned Corps Bulletin United States. Public Health Service. Commissioned Corps, 2000. The Realities of Partnership at Work Martin Upchurch, 2008-11-05. The realities of partnership at work finds evidence of work intensification, increased stress and more job insecurity where partnership has been introduced in the workplace. This definitive study written by leading authors in the field suggests that partnership is a utopian Third Way project designed to suppress and deny workplace conflict. The concept of good partnership following the TUCs six principles of partnership is probed and tested and found to fall short of employees and unions expectations. Government and employer efforts to use workplace consensus as a vehicle for productivity growth inevitably exacerbate the tensions between worker and employer interest, making prospects for mutual gains illusory. Research for this book was funded by the ESRC Future of Work Programme and it includes extensive surveys and interviews in organizations from finance, aerospace and the public sector. Few subjects could be judged more vital to current policy debates than the prospects for work and employment. The Future of Work series edited by Professor Peter Nolan, Director of the ESRC Future of Work Programme, provides the much needed evidence and theoretical advances to enhance our understanding of the critical developments most likely to impact on people's working lives.
