

A photograph of a Regal movie theater at night. The building is illuminated with blue and orange lights. The Regal logo, a stylized 'R' inside an orange hexagon, is prominently displayed on the upper part of the facade. To the right of the logo, the word 'REGAL' is written in large, orange, block letters. On the left side of the image, there is a vertical sign with the letters 'MU' inside a laurel wreath. A large, semi-transparent black box with white text is overlaid on the left side of the image. The text reads: 'HOW DO MOVIES AND THEATERS MAKE MONEY?'. The background shows the theater's entrance and some palm trees.

HOW DO MOVIES AND THEATERS MAKE MONEY?

Popular Culture in Hong Kong After the National Security Law, 2020-2022 Janet Ng, 2024-11-11 In this study Ng examines the aftermath of the massive protests in 2019 and the implementation of the National Security Law in Hong Kong. Despite 2 years of fluctuating COVID measures and social constraints the city witnessed an unparalleled cultural resurgence after the enactment of the National Security Law in 2020. This book explores Hong Kong beyond the end of the Anti Extradition Bill Movement in 2019 to examine what happened afterward: how society repaired itself, how the people of the city resumed their everyday life and what this everyday life entails. Ng examines the social debates and conversations during these 2 years, analyzing a wide range of creative projects in the city from television shows, popular music and social media to literary writings. She describes the difficulties, emotional experiences and also daily strategies to repair local life, recreate a self identity and reclaim the city's narrative against the pressures from China. This book is a valuable resource for researchers, scholars, students and general readers interested in popular culture and society and the global uprisings of the first decades of the twenty first century. The study, supported by detailed research, also makes this essential reading for those with a specialized interest in global studies and China and Hong Kong studies.

15 Minutes of Fame Frederick Levy, 2008-06-03 How ordinary people become famous. Everyone gets a shot at the spotlight. Since its launch in 2005 YouTube has been a hub for users to upload and share their most interesting, intimate, exciting or embarrassing moments with viewers all over the world. But how does one take advantage of YouTube's far reaching resources and get a video seen? Here Hollywood producer Frederick Levy addresses the interests and needs of the casual YouTube user as well as the serious web enthusiasts and video makers who are looking to explore YouTube and its social and networking aspects in greater depth. Loaded with advice from established Hollywood gurus who've been there, done that, this is the must have guide for the wired and connected audiences of YouTube. MySpace and Metacafe Readers will learn how to Upload videos from a mobile phone, Capture video directly to the site from a Webcam, Embed videos into personal web pages or blogs and much much more.

The Myth of Experience Emre Soyer, Robin M Hogarth, 2020-09-01 Experience is a great teacher except when it isn't. In this groundbreaking guide learn how the past can deceive and limit us and how healthy skepticism can build a better world. Our personal experience is key to who we are and what we do. We judge others by their experience and are judged by ours. Society venerates experience. From doctors to teachers to managers to presidents the more experience the better. It's not surprising then that we often fall back on experience when making decisions, an easy way to make judgements about the future, a constant teacher that provides clear lessons. Yet this intuitive reliance on experience is misplaced. In *The Myth of Experience* behavioral scientists Emre Soyer and Robin Hogarth take a transformative look at experience and the many ways it deceives and misleads us. From distorting the past to limiting creativity to reducing happiness, experience can cause misperceptions and then reinforce them without our awareness. Instead the authors argue for a nuanced approach where a

healthy skepticism toward the lessons of experience results in more reliable decisions and sustainable growth Soyer and Hogarth illustrate the flaws of experience with real life examples from bloodletting to personal computers to pandemics and distill cutting edge research as a guide to decision making as well as provide the remedies needed to improve our judgments and choices in the workplace and beyond *Franchise Era* Fleury James Fleury,2019-04-01 As Hollywood shifts towards the digital era the role of the media franchise has become more prominent This edited collection from a range of international scholars argues that the franchise is now an integral element of American media culture As such the collection explores the production distribution and marketing of franchises as a historical form of media making analysing the complex industrial practice of managing franchises across interconnected online platforms Examining how traditional media incumbents like studios and networks have responded to the rise of new entrants from the technology sector such as Facebook Apple Amazon Netflix and Google the authors take a critical look at the way new and old industrial logics collide in an increasingly fragmented and consolidated mediascape Successful Agile Product Development: Secrets to Building the Best Products (Expanded edition) Dr. Roger Chou,2025-11-10 Industries product development and processes worldwide have embraced a new paradigm in the VUCA era Agile Many Taiwanese companies follow the agile trend yet they discover questioned effectiveness of agile development due to cultural and mindset differences after implementation resulting in products not recognized by the market Product Owners often carry the responsibility of the product s development and successful marketing implying that Product Owners need expertise in agile development and marketing to create well received and successful products in the market Hence a classic Product Owner book tailored to the Taiwanese industry Successful Agile Product Development The Secret to Building a Best Selling Product was born This book could become the Wikipedia of Product Owners guiding individuals toward a clear path when they find themselves directionless in their role Features of this book 1 Three hundred full color pages with one hundred fifty illustrations and fifty classic corporate case studies 2 The first classic Product Owner book in Taiwan that integrates agile mindset with marketing techniques 3 The book features insights from over twenty Product Owners across ten major industries whose experiences are consolidated into comprehensive principle based articles that analyze pain points and provide solutions 4 The Product Owner Toolbox includes a complete demonstration of techniques and tools and SOP instructions 5 An in depth analysis of the entire process from product development to market launch accompanied by explanatory case studies resulting in a visually engaging experience that fosters holistic understanding 6 The book design is user context oriented catering to novices and experienced professionals across various roles Those involved in product planning and editing can focus on conducting planning and product design to capture the target customers hearts effectively For project managers and Product Owners adopting agile learn the essence of three pillars three accountabilities three artifacts five values and five events to eliminate development bottlenecks For engineers or technical personnel collaborating with Product Owners understanding different leadership styles and

collaboration approaches enables tailored solutions Advertising and marketing professionals who want to understand how to create buzz when promoting products can refer to the chapter on community management If you want to become a successful Product Owner you must attend the Product Owner skills and mindset section
