*Oxford Shakespeare concordances* Trevor H. Howard-Hill, 1972

*Othello, the moor of Venice* William Shakespeare, 1868

**Othello** William Shakespeare, 2017-09-02 In *Othello* Shakespeare creates a powerful drama of a marriage that begins with fascination between the exotic Moor Othello and the Venetian lady Desdemona with elopement and with intense mutual devotion and that ends precipitately with jealous rage and

violent deaths He sets this story in the romantic world of the Mediterranean moving the action from Venice to the island of Cyprus and giving it an even more exotic coloring with stories of Othello's African past Shakespeare builds so many differences into his hero and heroine differences of race of age of cultural background that one should not perhaps be surprised that the marriage ends disastrously But most people who see or read the play feel that the love that the play presents between Othello and Desdemona is so strong that it would have overcome all these differences were it not for the words and actions of Othello's standard bearer Iago who hates Othello and sets out to destroy him by destroying his love for Desdemona As Othello succumbs to Iago's insinuations that Desdemona is unfaithful fascination which dominates the early acts of the play turns to horror especially for the audience We are confronted by spectacles of a generous and trusting Othello in the grip of Iago's schemes of an innocent Desdemona who has given herself up entirely to her love for Othello only to be subjected to his horrifying verbal and physical assaults the outcome of Othello's mistaken convictions about her faithlessness by William Shakespeare William Shakespeare baptised 26 April 1564 was an English poet and playwright widely regarded as the greatest writer in the English language and the world's pre eminent dramatist He is often called England's national poet and the Bard of Avon or simply The Bard His surviving works consist of 38 plays 154 sonnets two long narrative poems and several other poems His plays have been translated into every major living language and are performed more often than those of any other playwright Shakespeare was born and raised in Stratford upon Avon Scholars believe that he died on his fifty second birthday coinciding with St George's Day At the age of 18 he married Anne Hathaway who bore him three children Susanna and twins Hamnet and Judith Between 1585 and 1592 he began a successful career in London as an actor writer and part owner of the playing company the Lord Chamberlain's Men later known as the King's Men He appears to have retired to Stratford around 1613 where he died three years later Few records of Shakespeare's private life survive and there has been considerable speculation about such matters as his sexuality religious beliefs and whether the works attributed to him were written by others Not trying to upset Proust or Joyce but these days it's Othello Shakespeare who's been taking me to bed every night He's become part of my daily routine and his are my last conscious thoughts before departing to dreamland Granted it could be another playwright or even a regular book All I need really are small chapters that I can finish quickly when slumber's tentacles start to wrap my body and their calming effects slowly soothe my mind But it's been Shakespeare and any insomniac who's recently found a new drug isn't willing to give it up that easily So Shakespeare stays I've recently finished Hamlet and King Lear and rated them 5 stars for I truly considered them nothing short of amazing plays but I confess so much has been written about them not only in amazing reviews but also in other literary classics that I'm not sure I have much to add Plus while I enjoy writing my usual ramblings about books I just finished
