**Time to Talk** Jean Gross,2013-05-21 Time to Talk provides a powerful and accessible resource for practitioners to help develop their own skills as well as supporting a whole school or setting approach to speaking and listening Written by the government s former Communication Champion for children it showcases and celebrates effective approaches in schools and settings across the country Jean Gross helpfully summarises research on what helps children and young people develop good language and communication skills and highlights the importance of key factors a place to talk a reason to talk and support for talk This practical and engaging book also provides whole class approaches to developing all children and young people s speaking and listening skills catch up strategies for those with limited language ways in which settings and schools can develop an effective partnership with specialists such as speech and language therapists to help children with more severe needs examples of good practice in supporting parents carers to develop their children s language skills answers to practitioners most frequently asked questions about speech and language This book is for all school leaders teachers and Early Years

practitioners concerned about the growing number of children and young people with limited language and communication skills **Effective Practices in Continuing Professional Development** Peter Earley, Vivienne Porritt, 2009 Effective Practices in Continuing Professional Development presents case studies of schools journeys towards effective CPD practice as part of a TDA national project. It tells the story of the goals set and achieved and the challenges and successes along the way. Each case study makes specific reference to the nine factors or approaches to CPD identified in the book as underpinning effective practice. This includes how a clarity of purpose was established at the outset of CPD activity and how the London Centre for Leadership in Learning's clear and rigorous impact evaluation framework supported and challenged projects to develop their thinking and practice. All of this is contextualised within the wider literature about the successful leadership of CPD and the effective practice of school workforce development. The editors introduce why effective CPD matters and conclude with the lessons learnt and ways forward. Among the many cases provided by leaders in this field, Sara Bubb writes how coaching in a special school was used to make teachers and support staff feel more valued. John Tandy describes how primary school heads came together with the Local Authority to jointly develop a Leadership Charter that was a summary of effective leadership practice in the Borough. The book will interest practitioners and professionals who design and develop CPD opportunities and practice within all sectors of education as well as all working within the strategic leadership of CPD. It also complements the TDA's national development programme for the leadership of CPD by showing how the strategic implications of the nine CPD approaches identified can improve the overall quality and impact of professional development and so enhance the learning for all children and young people.

### **Talk for Teaching:**

**Rethinking Professional Development in Schools** Paul Garvey, 2017-03-17 Paul Garvey uses his experience as a teacher inspector and a National Strategies consultant to advise educators and schools on how his Talk For Teaching method can help them take control of their Professional Development without it increasing costs or taking up valuable lesson time. Educators learn how Talk for Teaching can be applied by utilising experiences from all members of your teaching staff from TAs to heads. All play a vital role in the improvement of the teaching quality throughout the school whilst improving morale as well. Full of experiences from teachers, headteachers and inspectors as well as Garvey's own personal experiences this is not a book to be missed for anyone looking to journey towards teaching excellence. Talk for Teaching clearly works. This is what Ofsted said about the result of putting Talk for Teaching at the heart of a school's programme for improving the quality of teaching. The quote is taken from Barnsole Primary's Ofsted report in April 2016. Together with the deputy headteacher the headteacher has led the Talk for Teaching programme that has been an instrumental part of transforming the quality of teaching over time. The high quality teaching in this school now leads to outstanding outcomes for pupils. The school has used this professional development programme to involve leaders, teachers, teaching assistants, governors and other members of the school staff in observing teaching together. They have detailed conversations about the effectiveness of what is seen and

how it can be improved Staff discuss the quality of teaching regularly and freely share ideas about what works well with colleagues *Planning in the Moment with Young Children* Anna Ephgrave,2018-01-29 Young children live in the here and now If adults are to make a real difference to their learning they need to seize the moments when children first show curiosity and support their next steps immediately This book embraces the concept of planning in the moment and emphasises the critical role of the adult in promoting child led learning giving early years practitioners the confidence and insight to work and plan in the moment and enabling the children in their care to live learn play and develop in the here and now Planning in the Moment with Young Children maintains a strong link to practice providing numerous examples of how practitioners can integrate spontaneous planning and rich adult child interactions into their everyday practice and early years curricula From timetabling to setting clear rules creating enabling environments keeping records and making use of a variety of materials the book demonstrates the multitude of ways in which practitioners can encourage child autonomy and respond to the unique needs of each child Examples from practice are rooted in theory fully contextualised and exemplified by original documentation sourced from the author s own experiences and from a wide variety of settings Key features include over 180 full colour photographs to illustrate practice photocopyable pages including planning sheets documentation and activity sheets advice on working with parents individual children and groups tailored guidance on working with children at different stages of development from birth to age 6 years relevance to a range of settings including childminders pre schools nurseries and schools When children are allowed to select where with what and how to play they are truly invested in their play they become deeply involved and make dramatic progress This book is an outstanding testament to a responsive and child led way of working in early years environments Practitioners will be guided inspired and supported to work spontaneously and reactively planning as they go and celebrating the results

**F&\*K Ofsted!** Andy Cosslett,2025-03-17

Ofsted was formed in 1992 It s time for a radical change Ofsted has lost both the trust and the goodwill of the educational establishment Schools should be empowered and intrinsically motivated to take charge of their destiny and not dance to the tune of an external regulatory body Ofsted is a body that unwittingly creates a sense of fear causing schools to play safe whereas learning is all about taking apparent risks by taking steps out of your comfort zone to grow and flourish This book looks to explore and challenge a culture that needs to change and advocates a range of tried and trusted strategies that could support schools in challenging the powers that be It is a mix of theory practice and personal reflections of a former headteacher who has successfully led a number of schools through significant educational change

**Developing Maths Lesson Planning and Frameworks: Mastery, Logic and Reasoning in the Classroom** Linda (Yuqian) Wang, Jeremy Dawson, Chris Brown, 2023-11-24 This book highlights the essential relationship between lesson planning and key mathematical elements such as mastery and reasoning. The exemplification of ideas through useful classroom strategies gives the book a practical basis as well as theoretical. I have no doubt that even experienced teachers will find this book enlightening and encourage them to re-evaluate elements of their practice. Hayley Hands Secondary PGCE Mathematics Lead Newcastle University UK Developing Maths Lesson Planning and Frameworks provides much food for thought and includes many immediate take aways to reflect on or try out. This book will help enhance any maths teacher's lesson planning from the trainee teacher to the experienced practitioner. Rose Marie Rochester Archimedes NE Maths Hub Lead BH CET Director of Maths UK Addressing the maths skills gap, Wang et al propose a new method for maths lesson planning that harnesses the power of reasoning in mathematics teaching. Using a pedagogical approach called the Causal Connectivity Framework (CCF) this book helps teachers to support students in actively discovering the logical foundations upon which classroom activities are linked together. The authors have diverse expertise and experiences as maths teachers, teacher educators and researchers and this alternative approach is the result of long term collaboration aimed at building up successful maths lessons from the very first steps lesson planning. Developing Maths Lesson Planning and Frameworks Offers practical advice within a theoretical framework. Ties in with UK National Curriculum requirements. Contains detailed practical examples and visual aids throughout. Reasoning is a critical component of maths learning making this essential.
