Smith (CPCM.), 2012 WASHINGTON The Army official who managed the Pentagon s largest contract in Iraq says he was ousted from his job when he refused to approve paying more than 1 billion in questionable charges to KBR James Risen New York Times June 17 2008 This book by that very Army official provides an eye opening firsthand account of how the US Government hands over your tax dollars to support contractors like KBR and Halliburton rather than supporting the troops This authoritative and well documented record of the LOGCAP contract in Iraq and Afghanistan is at the same time a study of US participation in Iraq and Afghanistan as well as the workings of government agencies and Congress The first chapter sets the scene briefly narrating the author s work on behalf of US military efforts especially in Iraq Subsequent chapters illustrate specific issues in contractor relations that resulted in unsafe conditions for the troops and blew millions of taxpayer dollars Loyal and hard working government officials and employees who tried to keep things on track were turned away and those who sought to rein in the free for all were sacked The author reveals problems with KBR s provision of transportation electricity food and water Other chapters are more analytic and evaluate Army logistics Congressional oversight and the question of whether letting contracts for this kind of support is appropriate at all the kind of problems that concern military policy leaders defense analysts public policy analysts and scholars in these areas as well as the citizens in whose name this is all done *A Fatal Addiction* Thomas Block, 2012 America one of the most religious countries in the world is also the most violent Do God and war define the American spirit as much as apple pie and baseball This unsettling book illustrates how bellicose war like language is used to explain the spiritual quest It explores the violence of God tradition as it exists in all religions including Buddhism and then examines how

this dynamic is flipped with political leaders using spiritual and religious language to sell war to the general public Although God and religion have often been used to sell war in the United States this has been especially true since 9 11 After surveying the relationship of war and the spiritual quest in the major world religions this study concludes with an overview of how that dynamic has affected the contemporary American public discourse on war Does this intermingling of war and spirituality prepare the population for the coming of war The institutional blending of the sacred and human aggression appear to be fundamental to human society The second section of the book concentrates on the political language and speeches of American politicians since 2002 following the run up to the Iraq war and its continuation over the past decade showing how this mystical war conflation permeates American society *The Phone Book* Telkom (Firm : South Africa),2007
