Teaching Islamic Studies in the Age of ISIS, Islamophobia, and the Internet Kimberly Hall, Doaa Baumi, Manuela Ceballos, Benjamin Geer, Mouez Khalfaoui, Alfons H. Teipen, William Maynard Hutchins, Laila Hussein Moustafa, Nathan S. French, Todd Green, Sabahat F. Adil, Kecia Ali, Phil Dorroll, Lyndall Herman, Shehnaz Haqqani, 2019-01-24 A much needed volume and a must read for educators addressing a challenging topic in a challenging time

Choice How can teachers introduce the subject of Islam when daily headlines and social media disinformation can prejudice students' perception of the subject? Should Islam be taught differently in secular universities than in colleges with a clear faith-based mission? What are strategies for discussing Islam and violence without perpetuating stereotypes? The contributors of *Teaching Islamic Studies in the Age of ISIS, Islamophobia, and the Internet* address these challenges head-on and consider approaches to Islamic studies pedagogy, Islamophobia and violence, and suggestions for how to structure courses. These approaches acknowledge the particular challenges faced when teaching a topic that students might initially fear or distrust. Speaking from their own experience, they include examples of collaborative teaching models, reading and media suggestions, and ideas for group assignments that encourage deeper engagement and broader thinking. The contributors also share personal struggles when confronted with students including Muslim students and parents who suspected the courses might have ulterior motives. In an age of stereotypes and misrepresentations of Islam, this book offers a range of means by which teachers can encourage students to thoughtfully engage with the topic of Islam. Abundant and useful references. Highly recommended. Choice

Practising the Symbolic Sheena Jain, 2022-10-04 A powerful theory of the symbolic embedded within a remarkable and original theory of practice is a nodal aspect of the work of Pierre Bourdieu, who was a leading social thinker of our times. 1930-2002 Against the backdrop of the significance of symbolic practice in social life, this book explains the intellectual warp and woof of his theory of the symbolic, presents a brief excursus that explores its potential to illuminate social contexts other than those in which it was conceived, examines its links with Bourdieu's role of social critic and public intellectual, and engages critically with scholarly assessments of his contribution. The book thus seeks to provide a comprehensive and in-depth analysis and understanding of a central dimension of Bourdieu's work.

Affect Theory, Shame, and Christian Formation Stephanie N. Arel, 2016-11-08 This book addresses the eclipse of shame in Christian theology by showing how shame emerges in Christian texts and practice in ways that can be neither assimilated into a discourse of guilt nor dissociated from embodiment. Stephanie N. Arel argues that the traditional focus on guilt obscures shame by perpetuating the image of the lonely sinner in guilt. Drawing on recent studies in affect and

attachment theories to frame the theological analysis the text examines the theological anthropological writings of Augustine and Reinhold Niebuhr the interpretation of empathy by Edith Stein and moments of touch in Christian praxis Bringing the affective dynamics of shame to the forefront enables theologians and religious leaders to identify where shame emerges in language and human behavior The text expands work in trauma theory providing a multi layered theological lens for engaging shame and accompanying suffering **Pierre Bourdieu's Political Economy of Being** Ghassan

Hage,2025-09-05 Ghassan Hage outlines what he calls Pierre Bourdieu s political economy of being how society distributes and assigns values to ways of living and how people struggle to live a fulfilling life **Morphing Intelligence** Catherine

Malabou,2019-02-12 What is intelligence The concept crosses and blurs the boundaries between natural and artificial bridging the human brain and the cybernetic world of AI In this book the acclaimed philosopher Catherine Malabou ventures a new approach that emphasizes the intertwined networked relationships among the biological the technological and the symbolic Malabou traces the modern metamorphoses of intelligence seeking to understand how neurobiological and neurotechnological advances have transformed our view She considers three crucial developments the notion of intelligence as an empirical genetically based quality measurable by standardized tests the shift to the epigenetic paradigm with its emphasis on neural plasticity and the dawn of artificial intelligence with its potential to simulate replicate and ultimately surpass the workings of the brain Malabou concludes that a dialogue between human and cybernetic intelligence offers the best if not the only means to build a democratic future A strikingly original exploration of our changing notions of intelligence and the human and their far reaching philosophical and political implications Morphing Intelligence is an essential analysis of the porous border between symbolic and biological life at a time when once clear distinctions between mind and machine have become uncertain **The Racial Order** Mustafa Emirbayer,Matthew Desmond,2024-05-31 Proceeding from the bold

and provocative claim that there never has been a comprehensive and systematic theory of race Mustafa Emirbayer and Matthew Desmond set out to reformulate how we think about this most difficult of topics in American life In The Racial Order they draw on Bourdieu Durkheim and Dewey to present a new theoretical framework for race scholarship Animated by a deep and reflexive intelligence the book engages the large and important issues of social theory today and along the way offers piercing insights into how race actually works in America Emirbayer and Desmond set out to examine how the racial order is structured how it is reproduced and sometimes transformed and how it penetrates into the innermost reaches of our racialized selves They also consider how and toward what end the racial order might be reconstructed In the end this project is not merely about race it is a theoretical reconsideration of the fundamental problems of order agency power and social justice The Racial Order is a challenging work of social theory institutional and cultural analysis and normative inquiry
