## **Paul Klee Hand Puppets:**

**Paul Klee** Paul Klee, 2006 Between 1916 and 1925 Paul Klee 1879 1940 made some 50 hand puppets for his son Felix of which 30 are still in existence For the heads he used materials from his own household beef bones and electrical outlets bristle brushes leftover bits of fur and nutshells Soon he began to sew costumes These characters and small works do not pretend to be great art but at the same time they are superbly imaginative sweetly reminiscent of Klee s relationships with his family and beautifully illustrative of the artistic and social developments of the time Readers will see the chronological proximity of Dada and Kurt Schwitters s collages in Klee s Matchbox Ghost the German National caricatures one of the era s more ominous political types An introductory essay tracks the work s links to other avant garde puppetry and to Klee s sculptural works and notes his connections to the theater For their part Klee s son Felix and his grandson Alexander tell the story of how the figures were created

**Paul Klee** Paul Klee, Christine Hopfengart, 2006 **Puppet** Kenneth

Gross, 2024-05-31 Offering endless insights into the strange and archaic world of puppets This is a book of literary mysticism rich with accrued culture John Rockwell The New York Times Book Review The puppet creates delight and fear It may evoke the innocent play of childhood or become a tool of ritual magic able to negotiate with ghosts and gods Puppets can be creepy things secretive inanimate while also full of spirit alive with gesture and voice In this eloquent book Kenneth Gross contemplates the fascination of these unsettling objects objects that are also actors and images of life The poetry of the puppet is central here whether in its blunt grotesquery or symbolic simplicity and always in its talent for metamorphosis On a meditative journey to seek the idiosyncratic shapes of puppets on stage Gross looks at the anarchic Punch and Judy show the sacred shadow theater of Bali and experimental theaters in Europe and the United States where puppets enact everything from Baroque opera and Shakespearean tragedy to Beckettian farce Throughout he interweaves accounts of the myriad faces of the puppet in literature Collodi s cruel wooden Pinocchio puppetlike characters in Kafka and Dickens Rilke s puppet angels the dark puppeteering of Philip Roth s Micky Sabbath as well as in the work of artists Joseph Cornell and Paul Klee The puppet emerges here as a hungry creature seducer and destroyer demon and clown It is a test of our experience of things of the human and inhuman A book about reseeing what we know or what we think we know Puppet evokes the startling power of puppets as mirrors of the uncanny in life and art

**Paul Klee** Paul Klee, 2008 The work of Paul Klee 1879 1940 was deeply influenced by his passion for the theater Throughout his life the artist fervently attended theatrical performances from the opera to puppet shows Characters from plays or operas Hamlet Falstaff and Don Giovanni for example populate his cryptic visual world Various types of characters and theatrical elements such as clowns and masks were firmly established themes in his visual repertoire Primarily though Klee created connections between the theater and life taking up the *topos* of the world as a stage people became actors or marionettes theatrical events touched upon scenes from everyday life This publication sheds light on all of these aspects of Klee s fascination for the theater A chronology gives a panoramic outline of

his many experiences with the theater Selected works by contemporary artists make it clear that Klee was not the only one fascinated with the sharp eyed perception of theatrical situations the topic is one that continues to engage artists today

**BOOK JACKET Stefan Wolpe and the Avant-Garde Diaspora** Brigid Maureen Cohen, 2012-09-13 Cohen traces a history of modernism in migration through the composer Stefan Wolpe from the Bauhaus to Black Mountain College

**Architecture as a Performing Art** Marcia Feuerstein, Gray Read, 2016-04-15 How do buildings act with people and among people in the performances of life This collection of essays reveals a deep alliance between architecture and the performing arts

uncovering its roots in ancient stories and tracing a continuous tradition of thought that emerges in contemporary practice

With fresh insight the authors ask how buildings perform with people as partners rather than how they look as formal compositions They focus on actions the door that offers the possibility of making a dramatic entrance the window that frames

a scene and the city street that is transformed in carnival The essays also consider the design process as a performance

improvised among many players and offer examples of recent practice that integrates theater and dance This collection

advances architectural theory history and criticism by proposing the lens of performance as a way to engage the multiple

roles that buildings can play without reducing them to functional categories By casting architecture as spatial action rather

than as static form these essays open a promising avenue for future investigation For architects the essays propose

integrating performance into design through playful explorations that can reveal intense relationships between people and

place and among people in place Such practices develop an architectural imagination that intuitively asks How might people

play out their stories in this place and How might this place spark new stories Questions such as these reside in the heart of

all of the essays presented here Together they open a position in the intersection between everyday life and staged

performance to rethink the role of architectural design **Bauhaus 1919-1933** Barry Bergdoll, Leah Dickerman, 2009 The

Bauhaus the school of art and design founded in Germany in 1919 and shut down by the Nazis in 1933 brought together

artists architects and designers in an extraordinary conversation about modern art Bauhaus 1919 1933 published to

accompany a major multimedia exhibition at MoMA is the first comprehensive treatment of the subject by MoMA since 1938

and offers a new generational perspective on the 20th century s most influential experiment in artistic education It brings

together works in a broad range of mediums including industrial design furniture architecture graphics photography textiles

ceramics theatre and costume design and painting and sculpture many of which have rarely if ever been seen outside of

Germany Featuring about 400 colour plates and a rich range of documentary images this publication includes two

overarching images by the exhibition s curators Leah Dickerman and Barry Bergdoll concise interpretive essays on key

objects by over twenty leading scholars and an illustrated narrative chronology **Paul Klee** Hajo Düchting, 2008 This

accessible look at Klee s life and art displays the many facets that make his career so intriguing Filled with personal

photographs quotations from the artist and beautiful reproductions of his colorful paintings watercolors and prints this

volume introduces readers to the various themes that occupied Klee throughout his life The book explores topics such as Munich between two world wars the artists whom Klee befriended in the Blue Rider Group and at the Bauhaus the music that continued to inspire him and the illness that marked his final years A fascinating introduction for anyone interested in learning about this renowned artist here is a book that is as readable as it is informative AUTHOR Hajo Duchting is an art historian and author of numerous books ILLUSTRATIONS 120 illustrations *The Klee Universe* Paul Klee,2008 There are artists whose main tier is the observation or documentation of the world and artists who set the world aside altogether to build their own visionary cosmology designing its constituent parts from scratch as a personal mythology relayed in motifs Paul Klee 1879 1940 was such an artist as his aphorism Art does not reproduce the visible rather it makes visible testifies and The Klee Universe addresses his work from this perspective In 1906 Klee noted in his diary All will be Klee and in 1911 as the encyclopedist of his cosmos he began to meticulously chronicle his works in a catalogue that by the time he died was to contain more than 9 000 items Here in the fashion of an Orbis Pictus or a Renaissance emblem book Klee's oeuvre is made legible as a cogent entirety in thematic units address the human life cycle from birth and childhood to sexual desire parenthood and death music architecture theater and religion plants animals and landscapes and finally darker destructive forces in the shape of war fear and death The Klee Universe reimagines the artist as a Renaissance man an artist of great learning whose cosmos proves to be a coherent system of ideas and images Paul Klee 1879 1940 was born and died in Switzerland though he never obtained Swiss citizenship Technically of German nationality he taught at the Bauhaus from 1921 to 1926 alongside Wassily Kandinsky Franz Marc and others Seventeen of his works were included in the Nazi's infamous 1937 Munich exhibition of degenerate art **The Puppetry Journal** ,1961 **Paul Klee** Donald Wigal,2011 Paul Klee is one of those artists you can hardly classify in one movement of art history This book leads us through the marvels of Klee's world where each brush stroke echoes the power of colours **Paul Klee and His Illness** Hans Suter,2010 In 1933 Paul Klee's work was branded as Entartete Kunst Degenerate Art by the National Socialists and he was dismissed from his professorial post at the Düsseldorf Academy of Fine Arts This led him together with his wife Lily to return to his real home of Bern Here his avant garde art was not understood and Klee found himself in unasked for isolation In 1935 Klee started to suffer from a mysterious disease The symptoms included changes to the skin and problems with the internal organs In 1940 Paul Klee died but it was only 10 years after his death that the illness was actually given the name scleroderma in a publication about Klee However the diagnosis remained mere conjecture Since his adolescence the dermatologist and venereologist Dr Hans Suter has been fascinated by Paul Klee and his art and more than 30 years ago this fascination spurred him to commence research into the illness and its influence on the art of Paul Klee's final years It was due to Dr Suter's meticulous investigations that Klee's illness could be defined as diffuse systemic sclerosis In this book the author assembles his findings and describes the rare and complex disease in a clear and comprehensible way Further he

empathetically interprets more than 90 of Klee's late works. The point of view of a dermatologist renders a unique source of information. It provides on one hand new insights into everyday medical practices at the University of Bern in the 1930s which will fascinate doctors and local historians alike. While on the other hand art historians and art lovers will be absorbed by the newly discovered links between Paul Klee's work and his illness. *PAUL KLEE: PUPPETS, SCULPTURES, RELIEFS, MASKS, THEATRE* Paul Klee, 1979 *Paul Klee and the Bauhaus* Christian Geelhaar, 1973 **ARTnews**, 2006 **Matisse, Picasso, and Modern Art in Paris** Virginia Museum of Fine Arts, 2009 Considered together they provide a comprehensive view of modern art in Paris up to World War II and bring Jones's legacy to a wide audience for the first time.
