Farwell, Nancy L. Teger, 2012-06-11 This book presents a curricular framework for students, grades 6-12, that school librarians and teachers can use collaboratively to enhance reading skill development, promote literature appreciation, and motivate young people to incorporate reading into their lives beyond the required schoolwork. *Supporting Reading, Grades 6-12* A Guide addresses head-on the disturbing trend of declining leisure reading among students and demonstrates how school librarians can contribute to the development of lifelong reading habits, as well as improve students' motivation and test scores. The book provides a comprehensive framework for achieving this: the READS curriculum, which stands for Read as a personal activity. Explore characteristics, history, and awards of creative works. Analyze structure and aesthetic features of creative works. Develop a literary-based product and score reading progress. Each of these five components is explained thoroughly, describing how school librarians can encourage students to read as individuals, in groups, and as school communities support classroom teachers' instruction and connect students to today's constantly evolving technologies. Used in combination with an inquiry/information skills model, the READS curriculum enables school librarians to deliver a dynamic, balanced library program that addresses AASL's Standards for the 21st Century Learner. **Whitaker's Books in Print**, 1998 Sometimes Reading is Hard Robin Bright, 2021-08-24 When students say that reading is boring, difficult, overwhelming, or they cannot find a good book, it is almost impossible to sell them on the idea that reading is fun and worthwhile. *Sometimes Reading is Hard* shows teachers how to develop the skills students need to be successful and how to cultivate passionate, lifelong readers. An

intriguing look at the science of reading the book helps teachers understand the foundations upon which language and reading are learned so they can make their own good decisions about programs resources strategies and activities Classroom vignettes promising practices and step by step activities illustrate how teachers can weave teaching the skills of decoding vocabulary comprehension and fluency with real reasons to read This hands on teacher resource shows what a comprehensive research based reading program looks like in action
