## **Engaged Pedagogy, Enraged Pedagogy: Reconciling Politics, Emotion, Religion, and Science for Critical Pedagogy** T. Monchinski,2011-07-23

Students teachers and schools are under attack The assault comes in the guise of accountability and choice cloaking itself in the scientifically proven with an over emphasis of data It combines a vilification of organized labor along with a promotion of the irrational while readily blurring the line between utopia and dystopia The attack abuses education as it disseminates self serving propaganda simultaneously covering up inconvenient truths like the United States government s long and storied relationships with Saddam Hussein and Osama bin Laden in the Wars on Terror It suppresses solidarity and compassion while it champions a divisive form of selfish individualism Engaged Pedagogy Enraged Pedagogy seeks to counter these attacks and expose the ideological impulses behind them Marshalling critical pedagogy and an ethic of care with the notions of justified anger and the intellectual warrior the book explores the non antagonisitc dualisms between faith and science reason and emotion it deconstructs social texts ranging from 80s action films to dystopian literature as it uncovers the ideologies that structure and order our lives it explores and champions the democratic potential of dialogue mutuality and authority while challenging left essentialism and identity politics The book also features an interview with Joe Kincheloe a seminal figure in the field of critical pedagogy

**Policy Perspectives on Educational Testing** Bernard R. Gifford,2012-12-06 America faces a crisis in education and its accompanying effects on the nation's economic and social life. Educators and policy makers need to document the extent of this crisis to gauge its potential impact and to develop educational strategies that would boost achievement. This has turned the spotlight on educational assessment: the procedures, practices and tools that educators use to measure the progress of students both as individuals and groups. This book deals with a range of issues within the field of educational assessment with an emphasis on those issues that have sparked the public policy debate in recent years. Much of this volume concerns itself with the impact of testing on various subgroups of the population: blacks, Hispanics, young children and children considered to be of below average ability. Taken together, the contributions to this volume represent a broad range of views on differential test performance. This book is part of the subseries of books based on the Ford Foundation's National Commission on Testing and Public Policy. Previous titles in this program include: Gifford, Wing, Test in Defense, Gifford, O'Connor, Changing Assessments, Gifford, Test Policy and the Politics of Opportunity, Allocation and Gifford, Test Policy and Test Performance.
