Pediatric Nursing Pediatric Nursing:

Children and Young People's Nursing Ruth Davies, Alyson Davies, 2011-04-29 Children and Young People's Nursing provides a comprehensive overview of the issues facing children's nurses today. It focuses on developing best practice and implementing high quality care. This book covers the wide range of general and specialist care settings in which children and young people's nurses work including schools, the community and mental health. Written by a team of experts from across the UK, it emphasizes throughout the fundamental principles of contemporary children's nursing such as family centred care, safeguarding and the need for a culturally sensitive and rights based approach to care. This is an essential text for all children's nursing students as well as a useful reference for qualified nurses looking to update their practice. Key features: All chapters are underpinned by current policies and the latest research. Key points, reflection points, principles for practice boxes and case studies to aid learning. Concludes with a section on building your portfolio and advancing your practice and career.

Comprehensive Paediatric Nursing Rajalakshmi Murugan, 2017 Children and Young People's Nursing at a Glance Alan Glasper, Jane Coad, Jim Richardson, 2018-04-03 Children and Young People's Nursing at a Glance is the perfect companion for study and revision for pre-registration children's nursing students from the publishers of the market leading at a Glance series. Available in a range of digital formats perfect for on the go study and revision.

Essentials of Pediatric Nursing Terri Kyle, 2008 Essentials of Pediatric Nursing is intended for Pediatric Nursing courses with an integrated pediatric curriculum. It provides a unique concept based approach and nursing process focus that helps students go from concept to application by building on previously mastered knowledge from other courses. Organized into four logical units, Kyle Essentials of Pediatric Nursing covers a broad scope of topics with an emphasis on common issues and pediatric specific information. In addition, it has a variety of learning features to ensure student retention such as Healthy People 2010 boxes, Threaded Case Studies and Comparison Charts highlighting common diseases. Plus, it includes a BONUS CD-ROM and companion website that provide numerous resources for both students and instructors, including video clips of each developmental stage and care of the hospitalized child. Pediatric Nursing Care

Nicki Lee Potts, Barbara Lillian Mandelco, 2012 PEDIATRIC NURSING CARING FOR CHILDREN AND THEIR FAMILIES International Edition offers a dynamic and insightful guide to caring for pediatric clients. The authors embrace a holistic family centered approach to the care and nurturing of children in all states of health exploring healthy growth and development milestones as well as illness states and chronic conditions. All nursing care is framed within a family context underscoring the importance of viewing children not just as individuals but as members of a family. General nursing skills such as assessment, communication and health promotion are presented within the pediatric framework to help nurses approach children and their families with an authentic informed understanding of their conditions and needs. *Pediatric Nursing* Debra L. Price, Julie F. Gwin, 2008-01-01 Part of the popular LPN Threads series, the new edition of this market leading textbook presents a clear well organized exploration of pediatric nursing for LPN LVN students. It integrates cutting edge information with updated content offering useful learning tools to reinforce fundamental concepts. Organized according to developmental stages, the book covers pediatric nursing from infancy to adolescence with a separate chapter on end of life care for children and their families. With its easy to read clear writing style, it provides exactly the right depth and breadth of content for LPN LVNs. Organization by developmental stages. UNIQUE Pediatric psychophysiologic responses to bioterrorism and threats of bioterrorism are found in Chapter 1. UNIQUE Nursing Briefs stress important content related points and help you prioritize information. Communication Alert boxes identify key tips specific to establishing successful nurse patient family communication. UNIQUE Community Cues address home care and community based care issues and tie in nursing care with larger community based problems such as nutrition, immunization and health promotion. UNIQUE Data Cues list assessment data to help you recognize possible pediatric disorders. Nursing Care Plans with Critical Thinking Questions reinforce the nursing process as applied to pediatric disorders. 13 Skills follow the nursing process and are clearly presented in an Action Rationale format and teach basic procedures used by the LPN LVN in pediatric nursing settings. UNIQUE Chapter 3 includes a section on NIC/NOC classification systems used in many clinical and hospital settings. Online Resources appear at the end of each chapter and provide an opportunity for further study. Perforated Self Assessment Workbook included at the back of the book features a variety of matching, multiple choice study questions, case studies with critical thinking questions and Internet activities. UNIQUE Critical Thinking Snapshots of selected clinical situations with brief scenarios are located after the Critical Thinking Questions at the end of selected Nursing Care Plans and provide visual examples of specific disorders to help you apply critical thinking skills to clinical situations. UNIQUE January 2007 Recommended Childhood Immunization Schedule Appendix A for children, adolescents and catch up growth immunizations provide the most up to date information for nurses and families. UNIQUE JCAHO's Lists of Dangerous Abbreviations, Acronyms and Symbols provides guidelines for the prevention of medication administration error, especially serious in pediatric dosages.
