**Inevitable** Mike Colias, 2025-02-04 A sweeping portrait of the EV transformation and what it means for all of us The question is no longer if electric vehicles will happen or even when they ll happen but how Veteran automotive reporter Mike Colias takes you inside the transformation in this thoroughly reported profile of the hard pivot in the car business a 2 trillion industry undergoing the biggest change in its 120 year history a change that is already sending ripples across the entire global economy Colias documents the inevitable shift from pistons to electrons from every angle taking you inside the boardrooms where executives battle over their EV strategies to take on Tesla and more recently emerging Chinese powerhouses such as BYD He brings you to family run car dealerships deciding if they ll sell EVs or sell their businesses He follows entrepreneurs along lonely stretches of road that will soon need charging stations He talks to power train engineers whose skills were once the beating heart of the automotive industry but who now find themselves being replaced by coders This is an epic exploration that stretches from Detroit to Japan to Germany to China and from factories in Normal Illinois and Haywood County Tennessee to a burgeoning mining operation along the shores of California s briny lithium rich Salton Sea Inevitable is a deeply enjoyable and smart book that uses masterful storytelling to capture the expanse and dynamism of the transition to electric vehicles in profound detail bringing to life its seismic effects on everything and everyone

**Power Play** Tim Higgins, 2021-08-05 A Wall Street Journal Business Bestseller A deeply reported and business savvy chronicle of Tesla s wild ride Walter Isaacson A masterclass in narrative journalism Bradley Hope Exemplary The Times An exceptional work Washington Post Inside the outrageous come from behind story of Elon Musk and Tesla s bid to build the world s greatest car and the race to drive the future Elon Musk is among the most controversial titans of Silicon Valley To some he s a genius and a visionary and to others he s a mercurial huckster Billions of dollars have been gained and lost on his tweets and his personal exploits are the stuff of tabloids But for all his outrageous talk of mind uploading and space travel his most audacious vision is the one closest to the ground the electric car When Tesla was founded in the 2000s electric cars were novelties trotted out and thrown on the scrap heap by carmakers for more than a century But where most onlookers saw only failure a small band of Silicon Valley engineers and entrepreneurs saw potential and they pitted themselves against the biggest fiercest business rivals in the world setting out to make a car that was quicker sexier smoother cleaner than the competition Tesla would undergo a truly hellish fifteen years beset by rivals pressured by investors hobbled by whistleblowers buoyed by its loyal supporters Musk himself would often prove Tesla s worst enemy his antics repeatedly taking the company he had funded himself to the brink of collapse Was he an underdog an antihero a

conman or some combination of the three Wall Street Journal tech and auto reporter Tim Higgins had a front row seat for the drama the pileups wrestling for control meltdowns and the unlikely outcome of all success A story of power recklessness struggle and triumph Power Play is an exhilarating look at how a team of eccentrics and innovators beat the odds and changed the future

**New Scientist**, 2010-07-10 *Lithium-Ion Cells* Yury Koshtyal, Alexander Rumyantsev, 2024-12-24 A large quantity of articles and books have been published on the designated topics However most of the literary sources describe the results of scientific articles on the synthesis and study of perspective materials reveal circuit and design solutions for constructing control systems and manufacturing batteries and are educational materials At the same time a small part of the published sources includes the following descriptions of materials produced industrially and used in the LIC manufacturing process demonstrations of the industrially produced LIC energy and power parameters

analysis of the characteristics of manufactured miniature lithium ion cells solid state LICs lithium metal cells and all solid state cells as well as others Considering the popularity of the discussed topics one can hope to find detailed information on the Internet Indeed modern search engines make it possible to locate a sufficiently large number of relevant documents However while conducting such research we encountered the following challenges the data are somewhat fragmented and their systematization and structuring are required search results do not always meet search queries For instance data that were relevant to the topic were found but they did not match the query as accumulated data grow the search time for new information extends the choice of search engine and location different countries affects search results the data are not indexed in search engines although the correct keywords and website were requested the information disappears due to website updates and the found data require additional processing For example many presentations show changes in the shape of the discharge curves depending on the discharge current strength In addition however Ragone plots are necessary for a correct comparison and therefore the mathematical processing of presented results is required Thus this book was written to systematize and structure information on industrially produced materials for LIC manufacturing and industrially produced and promising LICs and lithium metal rechargeable cells for various applications
