CURRENT VASCULAR SURGERY

Mark K. Eskandari,2015-12-31 Current Vascular Surgery addresses contemporary topics and controversies in vascular and endovascular surgery providing a comprehensive overview of the field s recent evolution The volume is the result of the 40th Annual Vascular Symposium sponsored by the Division of Vascular Surgery Feinberg School of Medicine Northwestern University The symposium was held in Chicago on December 10 14 2015 The symposium was held at the InterContinental Hotel on Chicago s Magnificent Mile The symposium brought together over 50 national experts to address timely topics and controversies in vascular and endovascular surgery As has been the tradition presentations cover the full spectrum of vascular surgery including changes in management of extracranial cerebrovascular disease new treatment options for lower extremity arterial occlusive disease hemodialysis improvements in techniques for complex venous disease and developments in aortic stent graft repair in the chest and abdomen Each chapter in this volume is based on a presentation but the book chapters provide deeper more detailed information than is possible in a symposium presentation

[The Patient-Centered Approach to Claudication](#) William P. Robinson III,Jessica P. Simons,2025-10-26 In a publication in the Lancet by the Global Burden of Disease Collaborators peripheral artery disease PAD was noted to be a major public health concern due to its high and rising prevalence Intermittent claudication IC is the most common symptomatic manifestation of PAD causing significant disability and reductions in health related quality of life While at the global level there is concern for gross under treatment of PAD here in the US there has been growing concern for over treatment of IC It is clear that IC is a topic that warrants a dedicated thorough evidence based resource that can help vascular specialists gain a comprehensive understanding of IC and how to best approach and engage patients in their care This book reviews the current literature and clinical practices related to a patient centered approach to claudication from the anatomy physiology and epidemiology related to IC to diagnosis risk factors and management techniques including pharmacology exercise therapy and open and endovascular revascularization There are sections dedicated to outcome disparities the psychological impact of IC patient preference science and cost effectiveness There is also a patient facing brochure and educational poster that can be accessed and downloaded freely The content is geared toward a range of providers from practicing vascular specialists and primary care providers to those in vascular training programs Future directions for treatment and research as well as an assessment of unmet needs round out the presentation
