Unified Methodology for Airport Pavement Analysis and Design John Zaniewski, 1991 **Scientific and Technical Aerospace Reports**, 1993 Pavements Unbound Andrew Dawson, 2014-09-01

Nearly all highway airport dock and industrial pavements contain large quantities of untreated aggregate in the form of unbound pavement layers. In many pavements which are lightly or moderately trafficked crushed rock or gravel derived aggregates comprise the majority of the construction or in the case of unsealed pavements all of the structure. This book provides studies of the performance and description of this material that will help the reader to better understand its characteristics and behaviour both alone and as part of the pavement structure it forms. This work will be useful to practitioners policy makers researchers and students. It forms a sequel to the earlier book *Unbound Aggregates in Road Construction* also published by Balkema.

Pavement Analysis and Design Yang Hsien Huang, 1993 This text software package explores the structural analysis and design of highway pavements focusing on the mechanistic empirical design procedures rather than the purely empirical methods presents the theory of pavement design and reviews the methods developed by several organizations such as the AASHTO the AI and the PCA includes the KENLAYER program for flexible pavements applicable to a multilayered system under stationary or moving multiple wheel loads with each layer being either linear elastic nonlinear elastic or viscoelastic contains the KENSLABS program for rigid pavements applicable to multiple slabs fully or partially supported on a liquid solid or layered foundation with moment or shear transfer across the joints presents most of the advanced theory and detailed information in appendices features a large number of examples and line drawings

Structural Design of Asphalt Concrete Pavement Systems, 1971 The book consists of reports of nine problem oriented discussion groups a summary discussion of research needs identified by participants of the workshop and state of the art reports There are also brief reports on the implications of the workshop for FHWA and three HRB committees
