Your list of ingredients shall we say requires an understanding of sound and how it behaves, the know how to effectively use a sound system and the knowledge to choose and use your gear well. Add a dash of miking ability, stir in a pinch of thinking on your feet for when your system starts to hum or the vocals start to feed back and mix. In practice there really is no recipe for creating a quality performance. Instead musicians and engineers who effectively use sound systems have a wealth of knowledge that informs their every move before and during a live performance.
