The Handbook on Innovations in Learning Marilyn Murphy, Sam Redding, Janet Twyman, 2014-03-06 This handbook describes current best practices in instruction and innovative methods for engaging and teaching students. It aims to facilitate the adoption of these practices by suggesting implementation policies and procedures to leaders of state and local education agencies. **Raising Literacy Achievement in High-Poverty Schools** Eithne Kennedy, 2014-01-03 This book shares lessons gleaned from a two year intervention in a high poverty school which was highly successful in significantly narrowing the literacy achievement gap and in raising children's motivation and engagement in literacy both inside and outside school. Kennedy argues that there is much that disadvantaged schools can do to close the gap but this is more likely to occur when a research based approach to instruction with a dual emphasis on cognitive skills and motivation and engagement assessment and professional development is undertaken. *Solving the Literacy Puzzle* Norene A.
