Stem Kits Facebook Guide:

Executing Crisis Jo Robertson, 2019-11-07 Business leaders would be better served by understanding key crisis concepts and applying them to their own situation rather than relying on crisis advisors to swoop in to take care of a problem once it has become a crisis. Loaded with Case Studies How leaders deal with crisis can clarify character and strengthen reputation. On the other hand the wrong words and actions from the C Suite can worsen the crisis spiral. Crisis management does not begin on the day the fire erupts the hurricane barrels through or the accident happens. Dr Jo Robertson a leading expert in heading off and containing crisis lays out the key concepts that business leaders need to apply to their own organizations so they don't have to rely on outside crisis advisors to swoop in and save the day

Homeschooling and Libraries

Vera Gubnitskaia, Carol Smallwood, 2020-04-20 As families are looking for better ways to educate their children more and more of them are becoming interested and engaged in alternative ways of schooling that are different separate or opposite of the traditional classroom. Homeschooling has become ever more creative and varied as families create custom tailored curricula assignments goals and strategies that are best for each unique child. This presents a multitude of challenges and opportunities for information institutions including public academic school and special libraries. The need for librarians to help homeschool families become information and media literate is more important than ever. This collection of essays provides a range of approaches and strategies suggested by skilled professionals as well as veteran homeschool parents on how to best serve the diverse needs and learning experiences of homeschooled youth. It includes information on needs assessments for special needs students gifted students and African American students advice on how to provide support for the families of homeschoolers case studies and information on new technologies that could benefit libraries and the homeschooler populations that they serve

How to STEM Carol Smallwood, Vera Gubnitskaia, 2013-12-05 During the past few years groups like the President's Council of Advisors on Science and Technology Center for Education have been placing great emphasis on the significance of STEM science technology engineering and math education. In brief the US is seen as falling behind the rest of the world in science and technology education. In response the curricula have been revised in many educational institutions and school districts across the country. It is clear that for STEM to be successful other community organizations most particularly libraries need to be closely involved in the process. Library staff realize the importance of getting involved in STEM education but many have difficulty finding comprehensive information that will help them plan and successfully implement STEM direction in their organization. This book is designed to meet that need. It is timely and relevant. How to STEM Science Technology Engineering and Math Education in Libraries is by and for libraries who are involved in contributing efforts into advancing these subjects. It is organized in 9 parts including funding grant writing community partnerships outreach research and examples of specific programming activities. Authors are drawn from the professional staffs of educational institutions libraries and non profit organizations such as science museums. The book contains eight

parts each emphasizing a different aspect of how to succeed with STEM Part 1 emphasizes how hands on activities that are both fun and educational can be used to further STEM awareness Parts 2 and 3 contain chapters on the uniting of STEM with Information Literacy Innovative collection development ideas are discussed in Part 4 and Part 5 focuses on research and publishing Outreach is the theme of Part 6 and the programs described in these chapters offer an array of ways to connect with students of all ages The final section of How to STEM Science Technology Engineering and Math Education in Libraries addresses the funding of these programs Librarians of all types will be pleased to discover easy to implement suggestions for collaborative efforts many rich and diverse programming ideas strategies for improving reference services and library instruction to speakers of English as a second language marketing and promotional tips designed to welcome multicultural patrons into the library and much more
