In Quays, I spearheaded the launch of a new e-commerce platform that was rolled out within a condensed timeframe of four months, addressing market needs promptly. This initiative resulted in an impressive 50% year-over-year growth in user base and was instrumental in adding over 70,000 users and 1000 new clients. Such strategic investments under my leadership not only expanded our product reach but also demonstrated the effective fusion of rapid development cycles with uncompromised security – a key imperative in today's tech environment.

As I further advance our mutual goals in product innovation and sustainability, I am eager to contribute to Intel's initiatives to foster social engineering—a safe and positive experience for all. I am looking forward to the opportunity to discuss how my proven track record of leading high-impact projects aligns with the strategic interests of Intel.

The Tyranny of Big Tech Josh Hawley, 2021-05-04 The reign of Big Tech is here and Americans First Amendment rights hang by a keystroke Amassing unimaginable amounts of personal data giants like Google Facebook Amazon and Apple once symbols of American ingenuity and freedom have become a techno oligarchy with overwhelming economic and political power Decades of unchecked data collection have given Big Tech more targeted control over

Americans daily lives than any company or government in the world In The Tyranny of Big Tech Senator Josh Hawley of Missouri argues that these mega corporations controlled by the robber barons of the modern era are the gravest threat to American liberty in decades To reverse course Hawley argues we must correct progressives mistakes of the past That means recovering the link between liberty and democratic participation building an economy that makes the working class strong independent and beholden to no one and curbing the influence of corporate and political elites Big Tech and its allies do not deal gently with those who cross them and Senator Hawley proudly bears his own battle scars But hubris is dangerous The time is ripe to overcome the tyranny of Big Tech by reshaping the business and legal landscape of the digital world
