Moral Darwinism How We Became Hedonists

Roman Wölfel

Moral Darwinism How We Became Hedonists:

Moral Darwinism Benjamin Wiker, 2009-09-20 Abortion Euthanasia Infanticide Sexual promiscuity Ideas and actions once unthinkable have become commonplace We seem to live in a different moral universe than we occupied just a few decades ago Consent and noncoercion seem to be the last vestiges of a morality long left behind Christian moral tenets are now easily dismissed and have been replaced with what is curiously presented as a superior more magnanimous respectful and even humble morality How did we end up so far away from where we began Can the decline be stopped Ben Wiker in this provocative and insightful book traces the amazing story that explains our present cultural situation Wiker finds the roots of our moral slide reaching all the way back to the ethical theory and atheistic cosmology of the ancient Greek philosopher Epicurus Christian teaching had been in contention with this worldview long before it reached its pinnacle with the rise and acceptance of Darwinism But it was Darwinism Wiker contends that provided this ancient teaching with the seemingly modern and scientific basis that captured twentieth century minds Wiker demonstrates that this ancient atomistic and materialistic philosophy supplies the guiding force behind Darwinism and powerfully propels the hedonistic bent of our society while promoting itself under the guise of pure science This book is a challenge not only to those who believe Darwinism to be purely scientific fact but to Christian who have at times inconsistently lived out their Christian moral convictions and so have failed to recognize and address the ancient corrosive underpinnings of our present moral and intellectual crisis

10 Books that Screwed Up the World Benjamin Wiker, 2008-05-06 You've heard of the Great Books These are their evil opposites From Machiavelli's *The Prince* to Alfred Kinsey's *Sexual Behavior in the Human Male* from Karl Marx's *Communist Manifesto* to Margaret Mead's *Coming of Age in Samoa* these influential books have led to war genocide totalitarian oppression the breakdown of the family and disastrous social experiments And yet the toxic ideas peddled in these books are more popular and pervasive than ever In fact they might influence your own thinking without your realizing it Fortunately Professor Benjamin Wiker is ready with an antidote exposing the beguiling errors in each of these evil books Witty learned and provocative *10 Books That Screwed Up the World* provides a quick education in the worst ideas in human history and explains how we can avoid them in the future

A Meaningful World Benjamin Wiker, Jonathan Witt, 2006-07-12 When we look at nature whether at our living earth or into deepest space what do we find Benjamin Wiker and Jonathan Witt take you on a journey that reveals a universe shot through with meaning designed to be intelligible on multiple levels and one that points to God himself

Architects of the Culture of Death Donald DeMarco, Benjamin Wiker, 2004 In *Architects of the Culture of Death* authors Donald DeMarco and Benjamin Wiker expose the Culture of Death as an intentional and malevolent ideology promoted by influential thinkers who specifically attack Christian morality's core belief in the sanctity of human life and the existence of man's immortal soul In scholarly yet reader friendly prose DeMarco and Wiker examine the roots of the Culture of Death by introducing 23 of its architects including Ayn Rand Charles Darwin

Karl Marx Jean Paul Sartre Alfred Kinsey Margaret Sanger Jack Keivorkian and Peter Singer **The Catholic Church & Science** Benjamin Wiker, 2011-03 Were the Middle Ages dark for science Did the pope say Darwin was right From the Big Bang to Galileo from the origins of life on Earth to the existence of life on other planets The Catholic Church and Science clears away the fog of falsehood and misunderstanding to reveal a faith whose doctrines do not contradict the facts of science but harmonize with them and a universe whose uncanny order and precision point not to chance assemblage by random forces but to the purpose built design of an intelligent creator Author Ben Wiker The Darwin Myth A Meaningful World takes on the most common errors that modern materialistic thinkers convinced that faith and science must be mortal enemies have foisted into popular culture With great learning clarity and wit he tackles stubborn confusions many people have about the relationship between Christianity especially Catholicism and the empirical sciences and separates truth from lies the factual from the fanciful **The One Year Devotions for People of Purpose** Charles W. Colson, Anne Morse, 2006-10-04 Today's world moves at sometimes a maddening and confusing pace We all need time each day to focus on what's important what truly matters in light of eternity what will make an impact on this world In this One Year devotional Charles Colson helps us all become people of purpose day in and day out When we as Christians become focused on God's clear call to be light in this world we together can make a difference in all arenas of life from science to politics from the arts to mass media The book in brief Daily words of wisdom Action oriented devotions Covers hot topics from politics to media to science **The New Scholasticism**, 2002 Includes section Book Reviews *Deep Exegesis* Peter J. Leithart, 2009 The book is a powerful invitation to enter the depths of a text **Creation Research Society Quarterly** Creation Research Society, 2003 Perspectives on Science and Christian Faith, 2005 **The New Philosophy** John Whitehead, Lewis Pyle Mercer, John Reed Swanton, Harvey Farrington, 2008 *Creationism Versus Evolution* Eric Braun, 2005 Where did humans come from and how do we teach our children about it The battle over this element of classroom curricula has been a particularly contentious debate Today a faction of creationism known as Intelligent Design has raised the stakes even further claiming to have scientific proof that life was created by an intelligent designer Creationism versus Evolution examines the debate as it has unfolded in recent years **Eighteenth-Century Thought** James G. Buickerood, 2004 Ten essays grace the second voyage of the new annual along with a review essay and reviews of eight recent books all related to any aspect of thinking during the period known to historians though perhaps not strictly to horologists as the 18th century Among the topics are Christian Thomasius on the right of Protestant princes regarding heretic *Portuguese Literary & Cultural Studies*, 2001 *History of Philosophy Quarterly*, 2003 **Crisis**, 2005 A journal of lay Catholic opinion Sidney Hook Reconsidered Matthew J. Cotter, 2004 No Marketing Blurb *Modern Age*, 2005 **American Catholic Philosophical Quarterly**, 2002 **Faith & Reason**, 2005

Whispering the Strategies of Language: An Psychological Journey through **Moral Darwinism How We Became Hedonists**

In a digitally-driven world where displays reign supreme and instant transmission drowns out the subtleties of language, the profound secrets and psychological subtleties concealed within words often go unheard. However, nestled within the pages of **Moral Darwinism How We Became Hedonists** a interesting literary treasure pulsating with raw thoughts, lies a fantastic quest waiting to be undertaken. Composed by an experienced wordsmith, this enchanting opus attracts visitors on an introspective journey, delicately unraveling the veiled truths and profound influence resonating within ab muscles fabric of every word. Within the psychological depths of the poignant review, we will embark upon a genuine exploration of the book is key styles, dissect their fascinating writing model, and yield to the effective resonance it evokes heavy within the recesses of readers hearts.
