More Than A Few Good Men:

A Few Good Men Richard Coekin, 2008-02-01 Ten positive role models from the Bible A Few Good Men presents the reader with 10 positive role models from the Bible From Obedient Noah to Loyal Onesiphorous these character sketches combine dramatic story telling with challenging and insightful comment What kind of man do you want to be Who do you admire Rugged sportsmen smooth film stars and wild rock musicians all compete for our admiration But are these men the role models that we should aspire to be Solidly founded on biblical narrative these chapters will challenge and inspire readers to examine the struggles and temptations of these biblical men who face the same struggles that men still face today

A Few Good Gays Cati Connell, Catherine Connell, 2022-12-06 The US military has done an about face on gender and sexuality policy over the last decade ending Don't Ask Don't Tell restrictions on women in combat and transgender exclusion Contrary to expectations servicemembers have largely welcomed cisgender LGB individuals yet they continue to vociferously resist trans inclusion and the presence of women on the front lines In the minds of many the embodied deficiencies of cisgender women and trans people of all genders puts others and indeed the nation at risk In this book Cati Connell identifies the homonormative bargain that underwrites these uneven patterns of reception a bargain that comes with significant concessions upholding and even exacerbating race class and gender inequality in the pursuit of sexual equality In this handshake deal even the widespread support for open LGB service is highly conditional revocable upon violation of the bargain Despite the promise of inclusivity in practice the military has made room only for a few good gays to the exclusion of all others But should equal access be the goal How did we get from there to here And where do we go next In analyzing inclusion as a social movement aspiration Connell shows that its steep price is exacted through the continued abjection of queered Others both at home and abroad

Ordinary Lessons from an Ordinary Guy Samuel C. Williams III, 2021-11-19 This book is simple informative and transformative all at once Williams has once again used his exquisite insightfulness to transcend many of the blockades and excuses often used to avoid taking the responsibility and courage necessary for individuals to first look deeply earnestly and honestly at self before looking outward at others when seeking to effect lasting and meaningful change His belief that the first and most significant step to our long journey outward always begins with the first truthful step inward is evident throughout this writing While each teaching is independent of the ones to follow or precede it each of them is powerful and highly applicable as a stand alone self improvement tool If growing yourself and not the entire world is your objective then this is the book for you No one Williams says changes the world for the better until he or she first concedes that effective change must begin with self and work outward from there It is obvious that this book is intended to serve as a self paced guide and companion along the readers growth route and not merely as a tool of instruction to be read laid aside and forgotten
