**Sports Geek** Rob Minto,2016-10-20 Sports Geek is a visual and numerical tour through sporting debates and ideas Sport revolves

around two things narrative and numbers You need the narrative otherwise why would anyone care about sport Rivalries emotions and sporting legends all require it But sport also needs numbers Without them we have no idea who has won We need numbers to tell which team is top of the table or who is the world champion Teams in all sports use data to create extraordinary analysis of how their players perform to assess tactics and to get an edge over arch rivals but fans are rarely presented with challenging and informative data that would help them to further understand sport You ll never see sport the same way again
