**Advances and New Trends in Environmental Informatics** Andreas Kiliaris, Volker Wohlgemuth, Kostas Karatzas, Ioannis N. Athanasiadis, 2020-12-16 This book is an outcome of the 34th International Conference EnviroInfo 2020 hosted virtually in Nicosia, Cyprus by the Research Centre on Interactive Media Smart Systems and Emerging Technologies RISE. It presents a selection of papers that describe innovative scientific approaches and ongoing research in environmental informatics and the emerging field of environmental sustainability promoted and facilitated by the use of information and communication technologies ICT. The respective articles cover a broad range of scientific aspects including advances in core environmental informatics related technologies such as earth observation, environmental modelling, big data and machine learning, robotics, smart agriculture and food solutions, renewable energy based solutions, optimization of infrastructures, sustainable industrial processes and citizen science as well as applications of ICT solutions intended to support societal transformation processes toward the more sustainable management of resource use, transportation and energy supplies. Given its scope the book is essential reading for scientists, experts and students in these fields of research.
