**Kids in the Middle** Vikki S. Katz,2014-05-31 Complicating the common view that immigrant incorporation is a top down process determined largely by parents Vikki Katz explores how children actively broker connections that enable their families to become woven into the fabric of American life Children s immersion in the U S school system and contact with mainstream popular culture enables them more quickly to become fluent in English and familiar with the conventions of everyday life in the United States These skills become an important factor in how families interact with their local environments Kids in the Middle explores children s contributions to the family strategies that improve communication between their parents and U S schools healthcare facilities and social services from the perspectives of children parents and the English speaking service providers that interact with these families via children s assistance Katz also considers how children s brokering affects their developmental trajectories While their help is critical to addressing short term family needs children s responsibilities can constrain their access to educational resources and have consequences for their long term goals Kids in the Middle explores the complicated interweaving of family responsibility and

individual attainment in these immigrant families Through a unique interdisciplinary approach that combines elements of sociology and communication approaches Katz investigates not only how immigrant children connect their families with local institutional networks but also how they engage different media forms to bridge gaps between their homes and mainstream American culture Drawing from extensive firsthand research Katz takes us inside an urban community in Southern California and the experiences of a specific community of Latino immigrant families there In addition to documenting the often overlooked contributions that children of immigrants make to their families community encounters the book provides a critical set of recommendations for how service providers and local institutions might better assist these children in fulfilling their family responsibilities The story told in *Kids in the Middle* reveals an essential part of the immigrant experience that transcends both geographic and ethnic boundaries Parent & Child Lawrence Kutner,1992 From one of America's foremost authorities on communication between parents and children comes a unique sourcebook providing parents with new and powerful ways to understand the sometimes baffling behavior of their children Dr Kutner shows how to interpret behavior patterns anticipate problems and overcome setbacks and anxieties Amazon com viewed Sept 26 2023 *Early Years* ,1986 *Electronic Education* ,1985 **Think Big!** RoseMary Ludt,2020-07-01 Think Big A Resource Manual for Library Programs That Attract Large Teen Audiences is a how to manual for librarians who want to attract large groups of teens to their libraries with meaningful memorable events Large programs may seem to be impossible to attempt until the project is broken down into the separate parts needed Think Big begins with those separate parts necessary to create a large event starting with the logistics of time and place the budget and how to find funding making a timeline to make everything fall into place communication among all of the people involved marketing to the teen audience troubleshooting with thorough preparation and the importance of evaluations for reporting and for future planning Part 2 is a collection of best practices Seventeen successful large programs are included contributed by librarians who have dared to think big and made it work Included are the book and author programs in school and public libraries There are also creative programs about poetry and dance STEM activities pop culture and school and work Every section has two to four programs Each program explains how the program began and evolved to the event it is today A timeline how the program was financed who assisted to make every step successful how the program was publicized and how evaluations were collected and written are provided in detail to empower a librarian to tackle their first time big program **Best of the High School Press** ,1996 **The Single Parent** ,1974 *Teaching Struggling Readers* Carol A.
