Neither in the presentation of the verse nor in the commentary does this edition assume a command of foreign languages it aims to be useful for all students of Samuel Johnson's poetry

Modernist War Poetry Jamie Wood, 2022-10-19 This study examines the work of the principle architects of Anglo American modernist poetics T S Eliot H D Ezra Pound Gertrude Stein Edward Thomas and Wallace Stevens and their response to the challenge of combatant war poetries It argues that these civilian poets sought to negotiate directly with the combatant's gnosticism specifically with the combatant's assertion that only those present at a catastrophe could properly represent its horrors The modernists rightly identified that gnosticism was a threat to their own representational claims on an increasingly traumatic modernity How was the imagination to be salvaged in order that it could still feel into the wounded experience of others In response to this challenge the modernists drafted their own imagined war poems developing in the process several different and contradictory poetic systems Whereas scholarship ordinarily tells the story of intra war modern poetry as a series of different schools the trench lyric the home front elegy and the modernist long poem each moving in a different direction this study brings those traditions back together into one history by treating them as idiosyncratic responses to the same aesthetic problem

Handbook of British Literature and Culture of the First World War Ralf Schneider, Jane Potter, 2021-09-20 The First World War has given rise to a multifaceted cultural production like no other historical event This handbook surveys British literature and film about the war from 1914 until today The continuing interest in World War I highlights the interdependence of war experience the imaginative re-creation of that experience in writing and individual as well as collective memory In the first part of the handbook the major genres of war writing and film are addressed including of

course poetry and the novel but also the short story furthermore it is shown how our conception of the Great War is broadened when looked at from the perspective of gender studies and post colonial criticism The chapters in the second part present close readings of important contributions to the literary and filmic representation of World War I in Great Britain All in all the contributions demonstrate how the opposing forces of focusing and canon formation on the one hand and broadening and revision of the canon on the other have characterised British literature and culture of the First World War

Marotti,2021-05-26 This study examines the transmission and compilation of poetic texts through manuscripts from the late Elizabethan era through the mid seventeenth century paying attention to the distinctive material social and literary features of these documents The study has two main focuses the first the particular social environments in which texts were compiled and second the presence within this system of a large body of usually anonymous rare or unique poems Manuscripts from aristocratic academic and urban professional environments are examined in separate chapters that highlight particular collections Two chapters consider the social networking within the university and London that facilitated the transmission within these environments and between them Although the topic is addressed throughout the study the place of rare or unique poems in manuscript collections is at the center of the final three chapters The book as a whole argues that scholars need to pay more attention to the social life of texts in the period and to little known or unknown rare or unique poems that represent a field of writing broader than that defined in a literary history based mainly on the products of print culture
