Mythos And Logos

Myth and the Limits of Reason Phillip Stambovsky,1996 Traditionally understood as pre critical even pre rational mythical thought has in fact played a critical role in post Enlightenment intellectual history Modernists in philosophy and literature have used the depictive rationality of myth to disclose in self reflective ways the limits of discursive sense making in various domains of human experience In so doing they have effectively furthered without resort to analytical abstractions the epistemological critique of reason begun during the Enlightenment Stambovsky illustrates four widely diverse examples of this critical form of mythical thinking in works by Kierkegaard Miguel de Unamuno Henry James and Margaret Atwood The selected texts focus respectively on religious national cultural psychosocial and psychobiological realms of experience These illustrations follow an inquiry into why the very possibility of critical mythically inventive mythopoetic reflection is unsatisfactorily explained by leading rationalist accounts of myth It is with this problem in mind that Stambovsky begins his monograph with observations on the origins of rationalist and counter rationalist conceptualizations of myth in the fragments of Xenophanes the father of rationalist mythology and in Plato's *Phaedrus* Of pivotal import is the early rationalist

discrimination of mythos from logos and its epistemological implications the rationalist legacy in the history of the idea of myth Following his look at paradigmatic classical precedents Stambovsky traces the influence of the rationalist legacy in the myth theory of Malinowski L vi Strauss Cassirer Ricoeur and Blumenberg The aim is to reveal how this influence in different ways limits these theories as instruments for detecting and explaining the seminal critical and historical significance of modern mythopoeia This study will be of particular interest to teachers and students of myth theory in departments of

philosophy religion literature and cultural anthropology **Rereading the Sophists** Susan C. Jarratt,1998 In rereading the sophists of fifth century Greece Susan C Jarratt reinterprets classical rhetoric with implications for current theory in rhetoric and composition Provided by publisher *Mythos and Logos* Albert A. Anderson,Steven V. Hicks,Lech Witkowski,2004 This

is a valuable book jam packed with learning and insight cosmopolitan in scope timely yet classically anchored An achievement of intellectual beauty This is how I like to see philosophy conducted Robert Ginsberg Director The International Center for the Arts Humanities and Value Inquiry This book contains fifteen essays all seeking to regain the original meaning of philosophy as the love of wisdom Mythos and Logos are two essential aspects of a quest that began with the ancient Greeks As concepts fundamental to human experience Mythos and Logos continue to guide the search for truth in the twenty first century **From Mythos to Logos** Gilles Quispel,1973 *Derrida, Myth and the Impossibility of Philosophy* Anais N.

Spitzer,2011-06-02 In Derrida Myth and the Impossibility of Philosophy Anais N Spitzer shows that philosophy cannot separate itself from myth since myth is an inevitable condition of the possibility of philosophy Bombarded by narratives that terrorize and repress we may often consider myth to be constrictive dogma or at best something to be readily disregarded as unphilosophical and irrelevant However such dismissals miss a crucial aspect of myth Harnessing the insights of Jacques

Derrida's deconstruction and Mark C Taylor's philosophical reading of complexity theory Derrida Myth and the Impossibility of Philosophy provocatively reframes the pivotal relation of myth to thinking and to philosophy demonstrating that myth's inherent ambiguity engenders vital and inescapable deconstructive propensities Exploring myth's disruptive presence Spitzer shows that philosophy cannot separate itself from myth Instead myth is an inevitable condition of the possibility of philosophy This study provides a nuanced account of myth in the postmodern era not only laying out the deconstructive underpinnings of myth in philosophy and religion but establishing the very necessity of myth in the study of ideas
