**The Law and Ethics of Data Sharing in Health Sciences** Marcelo Corrales Compagnucci,Timo Minssen,Mark Fenwick,Mateo Aboy,Kathleen Liddell,2024-01-02 Data sharing broadly defined as the exchange of health related data among multiple controllers and processors has gained increased relevance in the health sciences over recent years as the need and demand for collaboration has increased This includes data obtained through healthcare provisions clinical trials observational studies public health surveillance programs and other data collection methods The practice of data sharing presents several notable challenges however Compliance with a complex and dynamic

regulatory framework is essential with the General Data Protection Regulation being a prominent example in a European context.
