Genevieve M. Kehoe

Natural Science 2013 Ana Memorandum:

Thomas Gray among the Disciplines Ruth Abbott, Ephraim Levinson, 2024-12-31 Throughout the 250 years that have passed since Thomas Gray's death he has primarily been celebrated as a poet. This makes sense because although he published relatively little verse he published less indeed precisely nothing of his abundant polymathic writing in other fields. His place within the history of scholarship has therefore been obscured. Like many eighteenth century antiquaries however he shared his learning through correspondence and manuscript circulation and thereby influenced intellectual as well as literary life. This book explores Gray's scholarship within the changing norms of eighteenth century disciplines at once locating him within histories of specialisation and examining the ways in which he challenges their narratives. Scholars from across the humanities reveal his methods and global interests and analyse many newly uncovered manuscripts. Offering fresh understanding of broader fields through focused investigation of Gray's multidisciplinary writings the book will appeal to scholars of eighteenth century literary intellectual and scientific history.

Ecosystems of California Harold Mooney, Erika Zavaleta, 2016-01-19 This long anticipated reference and sourcebook for California's remarkable ecological abundance provides an integrated assessment of each major ecosystem type its distribution structure function and management. A comprehensive synthesis of our knowledge about this biologically diverse state. *Ecosystems of California* covers the state from oceans to mountaintops using multiple lenses past and present flora and fauna aquatic and terrestrial natural and managed. Each chapter evaluates natural processes for a specific ecosystem describes drivers of change and discusses how that ecosystem may be altered in the future. This book also explores the drivers of California's ecological patterns and the history of the state's various ecosystems outlining how the challenges of climate change and invasive species and opportunities for regulation and stewardship could potentially affect the state's ecosystems. The text explicitly incorporates both human impacts and conservation and restoration efforts and shows how ecosystems support human well being. Edited by two esteemed ecosystem ecologists and with overviews by leading experts on each ecosystem this definitive work will be indispensable for natural resource management and conservation professionals as well as for undergraduate or graduate students of California's environment and curious naturalists.

Behavior Genevieve M. Kehoe, 2014-05-06 Presidents of nations with constitutionally imposed term limits are often viewed as growing weaker as they approach the end of their time in office However in this important new study political scientist Genevieve M Kehoe argues that because such chief executives are free from reelection constraint and often still enthusiastic to create a legacy by pursuing bold projects they may accomplish significant initiatives Kehoe has developed a concept for this which she calls Terminal Logic Behavior TLB Presidents and Terminal Logic Behavior Term Limits and Executive Action in the United States Brazil and Argentina provides both case studies and quantitative evidence to show how US presidents of the last three decades have utilized decrees on foreign domestic and environment policy during their final months in office She finds a systematic pattern of decree use consistent with the mark of TLB in a most unexpected place presidents use of national emergency powers In a careful comparative analysis she also finds support for her argument in the Argentinean and Brazilian experience of the same period **L.A.'s Titans of Temple Street** Tom Sitton, 2023-04-05 This book studies Los

Angeles County and its government since World War II A special focus is given to the Titans of Temple Street the five member Board of Supervisors that determines policies and actions for many issues throughout the county especially for residents who do not live in the county's 88 cities It is the largest of all U S counties with a population of more than 10 million more residents than 41 states and an annual budget of more than 44 billion more than all but 19 states It has served as an innovative example of county government since the early 1900s *Directory of Special Libraries and Information Centers*, 2009
