Naval Leadership Voices Of Experience:

Naval Leadership Karel Montor, 1987 This book was designed to be the final leadership text for those who are to be commissioned in the Naval Service *Naval Leadership*, 1959 The Marine Corps Gazette, 1988 *Saltwater Leadership Second Edition* Robert Wray, John B Mustin, Theodore P LeClair, Andrew Ledford, 2021-05-15 *Saltwater Leadership Second Edition* is about leadership in the maritime environment The unforgiving dynamic and unconquerable nature of the sea requires direct leadership often with very little margin of error The unique and common nature of professional life on the sea applies not only to junior naval leaders but also officer and enlisted leaders from the Marines Coast Guard and Merchant Marines Based on decades of leadership experiences *Saltwater Leadership* covers a wide variety of topics including basic junior officer leadership taking care of people providing forceful backup leadership and culture and professional competence

Leadership Robert A. Fitton, 2018-02-20 The thought provoking quotations presented here cover a broad spectrum of topics related to leadership The majority of authors represented are great statesmen philosophers or military leaders but also included are pertinent thoughts by corporate leaders scholars and writers International in scope the collection includes quotations from every period of history from ancient to contemporary times In this eminently browseable book the reader will find the quotations arranged in an accessible format Guided by a detailed table of contents and a unique index the reader can easily locate quotes either by topic or by author Robert Fitton has created a valuable and enjoyable reference work for anyone interested in the many facets of leadership **FBI Law Enforcement Bulletin**, 1993 **United States Naval Institute Proceedings**, 1988 **Leadership Embodied, 2nd Edition** Joseph J Thomas, 2013-10-15 Leadership is a most demanding undertaking How do some people make it seem so simple so natural and instinctive In the age old debate as to whether leaders are born or made Thomas contends that the answer is both Great leaders throughout history were born with certain capabilities Preparation honed those capabilities Then that ability and preparation were combined with a will to lead When circumstances demanded the great leaders of history pulled these attributes together to create results that drove the course of history While leaders are present in every aspect of human undertaking we chose to illustrate each of the components of leadership through the most dramatic and demanding of all human undertakings war and the preparations for war Wartime leaders are leaders writ with a darker pen Wartime challenges are because of the life and death nature of the affair more monumental and exacting In the selection of individuals to illustrate each point we chose wartime leaders as well as those who guided their subordinates and organizations in preparation for combat Further we chose American leaders with a distinct and obvious bias towards the navy and Marine Corps Multiple reasons led us to our approach for *Leadership Embodied* First a biography is perhaps the most effective method for imparting leadership lessons Simple listings of prescriptive traits or descriptive qualities are patronizing and frequently boring Second our biographical examples are familiar to most or at least they should be Finally all of these historical selections have dramatically shaped today's

institutions practices and customs within the naval services These are not marginal figures with marginal influence The individuals included and their respective leadership attributes should be required reading for any student of leadership Each has a particular lesson for midshipmen on their journey to becoming a navy or Marine Corps officer This book does not promise to be a panacea There is no short cut Leadership does not follow a prescribed path We study examples to inspire us to become better to be strong when it is easy to give in and to know others have gone before us and faced insurmountable odds Leadership as an ill defined social science crosses boundaries with several disciplines including sociology psychology philosophy and history We have selected a method that combines the psychological profile of effective leaders and the historical context of the impact their leadership brought to organizations and events Our hope for this book is that these case studies illustrate the basic elements in themselves the very essence of leadership It is through inherent talent arduous preparation and practical experience that we become capable leaders The reader brings the first to the table then we offer a small token in the second pursuit and circumstances enable the third
