Gerry Nagtzaam,2017-01-27 This book scrutinizes the growth of the eco terrorism movement operating on a global scale focusing

on the main groups and their more radical offshoots both historically and those currently active These include Earth First the Earth Liberation Front the Animal Liberation Front and the Sea Shepherd Conservation Society It critically examines how these groups form and how they have evolved their key personnel their strategies and tactics principles motivating philosophies and attitudes to violence Specifically the book seeks to understand whether such groups inevitably evolve from activists to militants to terrorists as the literature suggests Lastly it considers the future of such groups asking whether they will become more prominent as more people become ecologically aware and as global environmental conditions deteriorate or whether such groups have peaked as a force for environmental change
