A literature overview of customers value* Tim Ulbricht,2018-03-12 Seminar paper from the year 2018 in the subject Business economics Accounting and Taxes grade 1 0 LMU Munich Instituts f r Rechnungswesen und Wirtschaftspr fung course Accounting Auditing and Analysis AAA language English abstract This seminar paper gives an overview on the literature of measuring customer value A lot of companies have a very low book to market value e g Apple 0 15 Microsoft 0 14 Amazon 0 04 and Facebook 0 14 as of December 2017 Though according to US GAAP and IFRS annual reports should provide investors and prospect investors with decision useful information the balance sheet lacks certain intangible assets that are obviously driving the value of the firm That are for example brand equity organizational capital and customer equity Such assets became more important so that not only for researchers but also for practitioners and standard setters there is an incentive to identify possibilities to measure such assets reliably to make better investment decisions or for the latter to increase the decision usefulness of the information provided in the annual reports There is an increasing number of SBE subscription based enterprises or at least SB offerings which leads to an increasing number of balance sheets that do not sufficiently reflect the value of the firm For a long time the value of customers was just a marketing issue and not in the focus of accounting researchers but due to the development

described above it is getting into focus of accounting literature in the past decades Gleaves Burton Kitshoff Bates Whittington 2008 pp 827 832 There are several approaches to value customers but they have in common that first the value of a single customer is derived the so called CLV customer lifetime value sometimes also referred to as CV customer value To value the customer base of a firm all CLVs are aggregate to derive the so called CE customer equity The value a customer has for a firm is the sum of all discounted future contribution margins the firm can obtain from him Berger Nasr 1998 pp 18 19 Therefore I first look at the eligibility of customer value as an asset Afterwards I compare different approaches to derive the CLV then the approaches to derive the CE Next I analyze the literature concerning the link between performance and customer and show a possible calculation on the example of Netflix
