

NEC AccuSync™ LCD Series

Flat-panel monitors ideal for home users, small-to-medium businesses and educational settings

High-end LCD monitors don't necessarily have to be associated with high-end prices. As flat-panel display technology advances and becomes more mainstream, pricing continues to drop, making LCD monitors increasingly affordable for a variety of users. NEC AccuSync LCD Series monitors have set a new standard in value for this product category. In fact, with affordability akin to that of comparable CRT monitors, AccuSync LCD Series monitors offer you a perfect opportunity to take advantage of the many benefits offered by flat-panel monitors without having to break your budget. The 15" NEC AccuSync LCD20N, 17" NEC AccuSync LCD20K, 19" NEC AccuSync LCD20V and 20" NEC AccuSync LCD20X deliver ideal visual display solutions for small-to-medium-sized businesses and educational environments, as well as general home users, whether you're creating presentations, surfing the Internet or playing your favorite video game. The 15" NEC AccuSync LCD20N and 17" NEC AccuSync LCD20K, which boast integrated, front-firing speakers, further expand your application possibilities with their high-quality multimedia capabilities.

Enhanced screen performance. With contrast ratios as high as 250:1 (typical) and brightness quality much higher than CRT's at 250 cd/m², outstanding LCD monitor front-of-screen visual performance is NEC's #1 goal. The AccuSync LCD Series delivers vibrant colors and flicker-free images that make your time in front of the monitor more comfortable and productive. NEC's Rapid Response™ technology provides for uninterrupted display of full-motion video with response times of 25ms or less. This remarkably quick motion makes these models better than ever for gaming and video applications such as presentations and streaming web video. With WideView™ wide-angle viewing technology, available with the AccuSync LCD20V and LCD20X, you can enjoy flexible horizontal and vertical viewing angles. With both DVI-D and traditional 25-pin VGA connectors featured on the AccuSync LCD20X, you can bridge the gap between analog and digital systems by allowing the same monitor to work seamlessly in either environment.

Intelligent power management ensures a smart investment. Using approximately 20% less power and emitting less heat than comparable CRT monitors, AccuSync LCD Series monitors allow you to conserve energy and lower your total cost of ownership.
