Bruce,2026-01-15 Monasticism and Manuscript Culture in Medieval Europe offers a new perspective on the abbey at Cluny one of the medieval Christianity's most influential institutions Most historical approaches to Cluny have embraced a predictable rise and fall narrative determined largely by the extent of the abbey's legislative reach In this volume Scott G Bruce instead focuses on Cluny's cultural history through close attention to manuscript evidence Rather than emphasizing the great Burgundian abbey's exceptionalism the essays in this book underscore the interconnectedness of Cluniac devotional practices and written culture with contemporary Benedictine houses even those like the Cistercians commonly seen as being at odds with the brethren of Cluny As the essays in Monasticism and Manuscript Culture in Medieval Europe make clear Cluny was a center of cultural production at once receptive and influential embedded in a

dynamic field of monastic institutions some friendly some competitive but all participating in a vibrant cross pollination of written texts studied by monks in the safety of their cloisters and carried by them throughout Europe to the Mediterranean and to the Holy Land **Politics and Religion in Ancient and Medieval Europe and China** Frederick Hok-ming Cheung,Ming-chiu Lai,2021-11-01 Now distributed by Brill for The Chinese University Press Seven diverse papers written by ancient and medieval historians are collected in this volume These papers were presented at the academic conference Politics and Religion in Ancient and Medieval Europe and Asia organized by the Department of History and New Asia College of The Chinese University of Hong Kong in March 1996 Although the papers vary widely in the region and time span of coverage from ancient Egypt the early Roman Empire Norman England to medieval China they have in common their concern about the relationship between politics and different religions Christianity Buddhism Taoism and others in ancient and medieval Europe and Asia and the respective intellectual and cultural interactions Professor Mu chou Poo in his paper explores the ancient Egyptian attitudes toward foreigners and foreign culture as an effort to understand Egyptian culture from a new perspective and as a preliminary attempt to probe into the issues concerning the nature of ancient ethnicity and cultural consciousness Professor Yen zen Tsai s paper looks into the way the early Roman Empire treated mystery cults under its rule Professor Ming chiu Lai discusses the impact of a Buddhist ritual on Chinese religious culture between the second and sixth centuries Professor Chi tim Lai in his paper argues that some Taoist teachings advocated a new world order but they were not the real force that provoked the rebellions during the Eastern Jin Dynasty Professor Puay peng Ho exhibits the political meanings of the imperial buildings in the Tang period and sheds light on the research about legitimacy in medieval China Professor Warren Hollister s paper which is also the keynote speech points out that the high culture of twelfth century western Europe was largely the product of monasteries Finally Professor Frederick Hok ming Cheung examines the role of the Church in Anglo Norman politics The book will furnish a basis for further investigation on politics and religion in the ancient and medieval world and inspire scholarly inquiries into the comparative dimensions of these important historical phenomena This volume is distributed by Brill for The Chinese University Press *Discipline and Power* ,1995 An intellectual cultural and social analysis of the ways in which universities successfully transformed a set of values encoded in the concept of liberal education into a licensing system for a national elite **MEDIEVAL EUROPE** H.
