opportunities within India's education system. Why do millions of children in India attend school yet still struggle to acquire basic literacy and numeracy skills? This book examines the varied reasons behind poor learning outcomes, illustrating why high enrolment rates have not translated into meaningful educational progress. It underscores the urgent need to shift the focus from merely getting children into schools to ensuring they learn and thrive. Through real world case studies, insightful policy analysis and a focus on innovative state and national initiatives, the book unpacks what works in education and what does not. From the role of teachers and school leadership to the importance of inclusive policies and community engagement, it offers a holistic view of the factors influencing student achievement.
