## **Mekong Socio Legal Development Earthscan Management:**

The Mekong: A Socio-legal Approach to River Basin Development Ben Boer, Philip Hirsch, Fleur Johns, Ben Saul, Natalia Scurrah, 2015-12-22 An international river basin is an ecological system an economic thoroughfare a geographical area a font of life and livelihoods a geopolitical network and often a cultural icon It is also a socio legal phenomenon This book is the first detailed study of an international river basin from a socio legal perspective The Mekong River Basin which sustains approximately 70 million people across Cambodia China Laos Myanmar Thailand and Vietnam provides a prime example of the socio legal complexities of governing a transboundary river and its tributaries The book applies its socio legal analysis to bring a fresh approach to understanding conflicts surrounding water governance in the Mekong River Basin The authors describe the wide range of uses being made of legal doctrine and legal argument in ongoing disputes surrounding hydropower development in the Basin putting to rest lingering caricatures of a single ASEAN way of navigating conflict They call into question some of the common assumptions concerning the relationship between law and development The book also sheds light on important questions concerning the global hybridization or crossover of public and private power and its ramifications for water governance With current debates and looming conflicts over water governance globally and over shared rivers in particular these issues could not be more pressing

## **Trans-jurisdictional Water Law and Governance**

Janice Gray, Cameron Holley, Rosemary Rayfuse, 2016-06-23 Governance of global water resources presents one of the most confounding challenges in contemporary natural resource governance With considerable government citizen and financial donor attention devoted to a range of international transnational and domestic laws and policies aimed at protecting managing and sustainably using fresh and coastal marine water resources this book proposes that sustainable water outcomes require a trans jurisdictional approach to water governance Focusing on the concept of trans jurisdictional water governance the book diagnoses barriers and identifies pathways to coherent and coordinated institutional arrangements between and across different bodies of laws at local national regional and international levels It includes case studies from the European Union Australia New Zealand South Africa the United States and Southeast Asia Leading specialists offer insights into the pretence and the promise of trans jurisdictional water governance and provide readers including students practitioners policy makers and academics with a basis for better analysing articulating and synthesising standards of good trans jurisdictional water governance both in theory and in practice

## **Land and Hydropolitics in the Nile River Basin**

Emil Sandstrom, Anders Jagerskog, Terje Oestigaard, 2016-08-05 The Nile River Basin supports the livelihoods of millions of people in Egypt Ethiopia Sudan and Uganda principally as water for agriculture and hydropower The resource is the focus of much contested development not only between upstream and downstream neighbours but also from countries outside the region This book investigates the water land and energy nexus in the Nile Basin It explains how the current surge in land and energy investments both by foreign actors as well as domestic investors affects already strained transboundary relations in

the region and how investments are intertwined within wider contexts of Nile Basin history politics and economy Overall the book presents a range of perspectives drawing on political science international relations theory sociology history and political ecology     **Water Markets** Wheeler, Sarah A.,2021-08-27 Exploring water scarcity issues in light of the growing crisis in global water management this book examines the applicability of water markets It provides an overview and understanding of the presence of water markets across the globe analysing the ways in which different countries and regions are grappling with water scarcity     **Routledge Handbook of Contemporary Vietnam** Jonathan D. London,2022-07-29

The Routledge Handbook of Contemporary Vietnam is a comprehensive resource exploring social political economic and cultural aspects of Vietnam one of contemporary Asia s most dynamic but least understood countries Following an introduction that highlights major changes that have unfolded in Vietnam over the past three decades the volume is organized into four thematic parts Politics and Society Economy and Society Social Life and Institutions Cultures in Motion Part I addresses key aspects of Vietnam s politics from the role of the Communist Party of Vietnam in shaping the country s institutional evolution to continuity and change in patterns of socio political organization political expression state repression diplomatic relations and human rights Part II assesses the transformation of Vietnam s economy addressing patterns of economic growth investment and trade the role of the state in the economy and other economic aspects of social life Parts III and IV examine developments across a variety of social and cultural fields through chapters on themes including welfare inequality social policy urbanization the environment and society gender ethnicity the family cuisine art mass media and the politics of remembrance Featuring 38 essays by leading Vietnam scholars from around the world this book provides a cutting edge analysis of Vietnam s transformation and changing engagement with the world It is an invaluable interdisciplinary reference work that will be of interest to students and academics of Southeast Asian studies as well as policymakers analysts and anyone wishing to learn more about contemporary Vietnam     **Legal Frameworks for Transparency in Water**

**Utilities Regulation** Mohamad Mova Al'Afghani,2016-08-12 Transparency in the regulation of water utilities is essential in order to ensure quality and fairness This book explores and compares different regulatory arrangements in the water utilities sectors in three jurisdictions to determine which regulatory and ownership model is most transparent and why The three jurisdictions considered are England UK Victoria Australia and Jakarta Indonesia Following an introduction to the importance of transparency in water utilities regulation the book provides an overview of the three chosen jurisdictions and their legal and institutional frameworks Through a comparison of these the author explores the contested and difficult terrain of privatization as often opposed to public ownership in which it is shown that the relationships between transparency and ownership models are not as clear cut as might be assumed Chapters consider various aspects and outcomes of the regulatory process and the role of transparency including topics such as regulators internal governance mechanisms utilities corporate governance licensing and information flow freedom of information and transparency in tariffs and pricing as well

as customer service The book concludes with a summary of lessons learned to inform the refinement of transparency in utilities regulation **Riversymposium 2001** P. Greenfield, Selina Ward, 2002 Brisbane's annual Riversymposium plays a unique role providing an exchange and synthesis of river management knowledge and practice In presenting a holistic integrated approach to the subject it aims to showcase the world's best practice in river management and so act as a forum for learning and exchange of ideas for river managers to celebrate achievements in river management giving full value to social and ecological aspects of rivers and to increase public attention to issues of river management In keeping with its goal of addressing all aspects of river management the 2001 Riversymposium featured several key topics and river management case studies From the wide ranging and lively programme 31 articles have been selected for these proceedings Following the keynote address there are sections covering Human Impacts on River Health Rivers as Urban Landscapes the Renaissance of the Waterfront The Economics of River Management Sustainable River Management Community Involvement in River Management Environmental Flows With contributions from around the world the Riversymposium proceedings present a holistic view of river management offering scientists politicians practitioners industry and community groups a key resource on current issues relating to the management of rivers
