[Going for Gold](#) Zoltan Erdey, 2021-03-10 Do you want to build your wealth and secure your financial future Do you want to ensure that inflation does not eat away at everything that you have worked so hard for Do you want to own wealth outside of the paper financial system If your answer to these three questions is yes then you need to own real money Not rands dollars or euros these are merely fiat currencies You want to own gold and silver as without them your wealth is only worth the value of the ink and the paper on which it is printed For thousands of years holders of gold and silver have discovered that both metals are monetary antidotes against global financial chaos caused by debt fiscal imprudence and ad infinitum money printing The proprietor of even a few ounces of gold is not only an investor but an individual with the assurance that their wealth and purchasing power remains preserved Going for Gold is not an attempt to coerce investors into allocating a portion of their total investment portfolio to precious metals Rather it speaks directly to the South African investor and declutters and contextualises the vast amounts of information available about precious metals providing counsel that the mainstream financial industry has disregarded at best and suppressed at worst

**The Publishers Weekly**, 2009 **The Great Gold, Silver and Crypto Rush of the 21st Century** Michael Maloney, 2022-03 In The Great Gold Silver and Crypto Rush of the 21st Century Mike Maloney and Jeff Clark show why more wealth will be won and lost than ever before They explain why the global spread of democracy financial affluence changes in laws the development of the investor mindset and the coming change in the worldwide monetary system are all conspiring to make this the biggest financial event the world has ever seen Zero interest rates and massive currency creation have push real estate stocks and bonds back into massive bubbles and now the entire world is in the everything except gold and silver bubble But the forces that threaten the world monetary system are the same forces that will propel gold and silver to unimaginable heights Yes the threat has never been bigger but that means that the opportunity has never been bigger Since 2001 savvy investors and central banks preparing for the next financial crisis have already purchased three times more gold and silver than they did in the entire bull market of the 1970s and they've gobbled up more than ten times the gold that came out of the ground in the California Gold Rush of 1849 Nothing in history can compare But don't worry you haven't missed anything This is only the beginning the big rush is yet to come People will either become richer or poorer The good news is that it is entirely up to them *Rich Dad's Advisors®: Guide to Investing in Gold and Silver* Michael Maloney, 2008

Library Journal ,2009    *Mezhdunarodnye problemy* ,2011    *The Great Gold & Silver Rush of the 21st Century* Mike Maloney,2022 I m absolutely certain that the biggest financial crisis in history lies dead ahead But if you get prepared early it might just be the best thing that ever happened to you financially As I have said many times before There are brief moments in history where the safe haven assets gold and silver simultaneously offer the greatest potential gains in purchasing power By investing in this book you ve positioned yourself to gain from what I ve repeatedly called the greatest wealth transfer in history while at the same time protecting yourself and your family This book is about the sheer enormity of what s coming its absolute inevitability and how to both protect yourself and profit from it Because the forces that threaten the world monetary system are also the same forces that will propel gold and silver to unimaginable heights    **Indian National Bibliography**
