Systematic persuasion is the process through which attitudes or beliefs are changed by appeals to logic and reason. Heuristic persuasion on the other hand is the process through which attitudes or beliefs are changed because of appeals to habit or emotion.

Persuasion [electronic Resource] Jane Austen, 2004. Sir Walter Elliot of Kellynch Hall in Somersetshire was a man who for his own amusement never took up any book but the Baronetage; there he found occupation for an idle hour and consolation in a distressed one; there his faculties were roused into admiration and respect by contemplating the limited remnant of the earliest patents; there any unwelcome sensations arising from domestic affairs changed naturally into pity and contempt as he turned over the almost endless creations of the last century; and there if every other leaf were powerless he could read his own history with an interest which never failed.

Persuasion (Fully Illustrated Extended Edition) Jane Austen, 2012. This extended and annotated version is fully illustrated with all the original drawings. It also includes a detailed introductory annotation on how the book and the plot were created. Persuasion represents the ripest development of Jane Austen's powers; that latest phase of her thoughts and feelings. It is a novel which while not wanting in the several excellences of those which preceded it, has a mellower tone and a more finished grace of style than any of the others. It was written at a time when bodily strength had given place to weakness and although her mind was more active than ever, her physical condition insensibly influenced her thought, giving this latest of her books that deeper note of feeling, that finer touch of sympathy and tenderness which make Persuasion the greatest of all her works.

Oscar Fay Adams: It was Miss Austen's last story and has more depth of feeling and pathos than most of hers. The delicate miniature painting of the characters in these tales is apt not to be appreciated by the young and the tone of county society of that day disgusts them; but as they grow older they perceive how much ability and insight is displayed in the work and esteem the forbearance, sweetness and self-restraint of such a heroine as Anne.
