The Art of Becoming Infinite Gabriella Stanchina, 2025-01-27 Mou Zongsan is arguably the most important Chinese philosopher of the twentieth century This work delves into the philosopher's exploration of self and subjectivity setting Mou Zongsan's theories against Western paradigms Mou contrasts Western horizontal model based on the separation of subject and object and aimed at cognitive enhancement with the vertical view dominant in the Confucian and Daoist tradition The vertical model has at its core a practical performative interpretation of the subject based on the moral self cultivation This spiritual cultivation enables the finite human being to become infinite embodying the original unlimited moral mind that constitutes the Self and the universe In addressing fundamental questions of self consciousness and self identity the book contextualizes Mou's philosophy within contemporary discussions in neuroscience and cognitive

science By placing Mou's ideas in dialogue with Western thought examining thinkers like Husserl Kant Hegel and Levinas as well as with Daoist and Confucian vision of mind this work opens a pathway to understanding selfhood beyond purely epistemological boundaries This book will be of interest to readers and scholars interested in the contemporary debate about mind and the Self as well as those intrigued by the new horizons opened by a cross cultural Western Chinese approach to subjectivity **Mind in Nature** ,1886 *Six Essays on the Subject Methods of Self-help* Ernest Loomis,1898
