Basic Nursing Patricia Ann Potter, Anne Griffin Perry, 1999 This innovative text presents nursing fundamentals in a concise visually attractive format that captures students' attention and addresses dramatic changes taking place in the health care environment. At the heart of this revision is the critical thinking model presented as a practical clinical decision making guide and applied to the nursing process throughout. Case studies in all clinical chapters bring this process to life demonstrating to students how using the combination of critical thinking and the nursing process will help them deliver comprehensive professional care. Case studies introduce the client, family and nurse and follow them through synthesizing knowledge and assessment, data planning and evaluating care. It addresses community health care and health promotion by consistently organizing each implementation section into three main areas: health promotion, acute care and restorative care. Other themes include delegation, multidisciplinary collaboration, focus on outcomes, cultural sensitivity, gerontologic principles and client satisfaction. Complete coverage of fundamentals in a concise, readable, visually appealing format. Five step nursing process provides a consistent framework in all clinical chapters. Hundreds of color photographs and drawings increase educational value while adding visual appeal. Client teaching covered in both narrative and boxes to highlight this key nursing role. Skills are presented in a clear two column format with rationales for all steps. NEW FEATURES Critical thinking model provides a practical clinical decision making guide applied to the nursing process. Case studies in all clinical chapters include the client, family and nurse and are developed throughout the chapter to demonstrate the ongoing nature of nursing care. Implementation consistently addresses health promotion, acute care and restorative care to reflect the current focus on community based nursing and health promotion. Skills include

guidelines to assist nurses when delegating to unlicensed assistive personnel Critical Decision Points Recording and Reporting and Home Care Considerations Expanded evaluation includes both the nurse's and client's perspectives to stress today's customer satisfaction emphasis Care Plans based on the case studies highlight key assessment data and include client goals and expected outcomes Procedural Guidelines provide step by step instructions for performing basic skills in a clear and concise format Cultural focus is reflected throughout and in special boxes to highlight the importance of cultural sensitivity Collaborative care and multidisciplinary problems are addressed in narrative and care paths maps to reflect current health care focus Includes FREE CD ROM with checklists and fluid and electrolyte program and MERLIN website at www.harcourthealth.com/MERLIN Potter Basic [Critical Thinking TACTICS for Nurses](#) M. Astle, Wendy Duggleby, Patricia A. Potter, Anne G. Perry, Patricia A. Stockert, Amy Hall, 2023-02-15 Get the solid foundation you need to practise nursing in Canada Potter Perry's Canadian Fundamentals of Nursing 7th Edition covers the nursing concepts knowledge research and skills that are essential to professional nursing practice in Canada The text's full colour easy to use

approach addresses the entire scope of nursing care reflecting Canadian standards culture and the latest in evidence informed care. New to this edition are real life case studies and a new chapter on practical nursing in Canada. Based on Potter Perry's respected *Fundamentals* text and adapted and edited by a team of Canadian nursing experts led by Barbara J Astle and Wendy Duggleby, this book ensures that you understand Canada's health care system and health care issues as well as national nursing practice guidelines. More than 50 nursing skills are presented in a clear two column format that includes steps and rationales to help you learn how and why each skill is performed. The five step nursing process provides a consistent framework for care and is demonstrated in more than 20 care plans. Nursing care plans help you understand the relationship between assessment findings and nursing diagnoses, the identification of goals and outcomes, the selection of interventions and the process for evaluating care. Planning sections help nurses plan and prioritize care by emphasizing Goals and Outcomes, Setting Priorities and Teamwork and Collaboration. More than 20 concept maps show care planning for clients with multiple nursing diagnoses. UNIQUE Critical Thinking Model in each clinical chapter shows you how to apply the nursing process and critical thinking to provide the best care for patients. UNIQUE Critical Thinking Exercises help you to apply essential content. Coverage of interprofessional collaboration includes a focus on patient centered care, Indigenous peoples' health, referencing the Truth and Reconciliation Commission TRC Report, the CNA Code of Ethics and Medical Assistance in Dying MAID legislation. Evidence Informed Practice boxes provide examples of recent state of the science guidelines for nursing practice. Research Highlight boxes provide abstracts of current nursing research studies and explain the implications for daily practice. Patient Teaching boxes highlight what and how to teach patients and how to evaluate learning. Learning objectives, key concepts and key terms in each chapter summarize important content for more efficient review and study. Online glossary provides quick access to definitions for all key terms.
