Biosurveillance Taha Kass-Hout, Xiaohui Zhang, 2010-11-09 As evidenced by the anthrax attacks in 2001, the SARS outbreak in 2003, and the H1N1 influenza pandemic in 2009, a pathogen does not recognize geographic or national boundaries, often leading to devastating consequences. Automated biosurveillance systems have emerged as key solutions for mitigating current and future health-related events. G. Julie Rajan, 2016-02-26 This volume looks at human rights in independent India through frameworks comparable to those in other postcolonial nations in the Global South. It examines wide-ranging issues that require immediate attention, such as those related to disability, violence, torture, education, LGBT, neoliberalism, and social justice. The essays presented here explore the discourse surrounding human rights and engage with aspects linked to the functioning of democracy, security, and strategic matters and terrorism, especially post 9/11. They also discuss cases connected with human rights violations in India and underline the need for a transparent approach and a more comprehensive perspective of India's human rights record. Part of the series *Ethics, Human Rights, and Global Political Thought*, the volume will be an important resource for academics, policy makers, civil society organisations, lawyers, and those concerned with human rights. It will also be useful to scholars and researchers of Indian politics, law, and sociology. *Bittere kou* Hongda Harry Wu, 1982 Autobiografisch verslag van een Chinese intellectueel die zonder enige vorm van proces negentien jaar werd opgesloten in werkkampen **Spotted Goddesses** Roja Singh, 2018 Roja Singh's critical ethnography on caste and gender is rooted in interactions and lived experiences in communities of Dalit women in Tamil Nadu, India.
