## **Nurturing Dreams Collected Essays On Architecture And The City:**

Nurturing Dreams Fumihiko Maki,2012-09-21 Unavailable as a collection until now these essays document both the intellectual journey of one of the world's leading architects and a critical period in the evolution of architectural thought Born in Tokyo educated in Japan and the United States and principal of an internationally acclaimed architectural practice celebrated architect Fumihiko Maki brings to his writings on architecture a perspective that is both global and uniquely Japanese Influenced by post Bauhaus internationalism sympathetic to the radical urban architectural vision of Team X and a participant in the avant garde movement Metabolism Maki has been at the forefront of his profession for decades This collection of essays documents the evolution of architectural modernism and Maki's own fifty year intellectual journey during a critical period of architectural and urban history Maki's treatment of his two overarching themes the contemporary city and modernist architecture demonstrates strong and sometimes unexpected linkages between urban theory and architectural practice Images and commentary on three of Maki's own works demonstrate the connection between his writing and his designs Moving through the successive waves of modernism postmodernism neomodernism and other isms these essays reflect how several generations of architectural thought and expression have been resolved within one career

*Animate(d) Architecture* Vahid Vahdat,2024-03-25 At their peak architectural marvels such as the Sagrada Família the Tower of London the Mosque Cathedral of Córdoba and the Eiffel tower had a combined annual visit of almost 16.4 million people The animated icebound castle in Disney's 2019 Frozen had 116.4 million views from one single YouTube trailer in less than 24 hours The spaces of such massively consumed animation have for generations informed the architectural imagination of people across the globe and from very early in their lives Yet not only have the architectural disciplines remained rather absent in the design of these massively consumed spaces architectural theory has likewise failed to articulate a framework to approach the architecture of animation To address this void this book offers an interdisciplinary approach to survey the role of space in animation including in creating humorous moments in early cartoon shorts generating action and suspense in Japanese anime and even stimulating erotic pleasure in pornographic Hentai Exploring the imagined architecture of animation from early motion picture to digital animation and from computer graphics to game engines offers an analytical frame to reconceptualize space An Open Access version of Yuko Yoshida's chapter *Animated Embodiments of Witnessing An Architectural Narrative of Silence* is available on the Liverpool University Press website

Supergrid and Superblock Xiaofei Chen,2022-10-03 In this superbly illustrated book Xiaofei Chen presents the first analysis in English of a ubiquitous East Asian urban phenomenon the supergrid and superblock urban structure The book opens with an introductory essay by Barrie Shelton in which he sets the scene for what is to follow emphasizing how alien this structure was to Western urban design culture where radial patterns of development were the norm Then in her first chapter Chen explains the make up of the supergrid and superblock urban structure and its contrasting Chinese and Japanese forms In the following three chapters

she digs deep into the history cultural origins and underlying design philosophy of the supergrid and superblock to show how under different cultural influences the model has developed into two distinct forms Two further chapters 5 and 6 provide detailed analysis of two sample superblocks in China in Xi an and Nanjing and two in Japan in Kyoto and Osaka to reveal the relative advantages and disadvantages of how the structure is manifest in the two countries In her conclusion she discusses her findings to show how and why the supergrid and superblock structure is a valuable urban design model which with regional adjustments can be used effectively in cities other than those of East Asia

### **Architecture in Cinema**

Nevnihal Erdogan,Hikmet Temel Akarsu,2024-04-26 In Architecture in Cinema more than 40 architects writers thinkers and academicians examine the magnificent works of cinema that contribute to the art of architecture and bring them to the attention of the architectural community The contributors have compiled essays on fifty masterpieces of classic and contemporary cinema including films such as The Cabinet of Dr Caligari Ben Hur The Lord of The Rings trilogy Nomadland and more The book aims to stimulate the imagination of readers and offer approaches to understanding fantasy sociological concepts ecological problems and political ideas The contributors also focus on the elements of creativity such as utopian or dystopian themes aesthetics and artistry Architecture in Cinema is an informative reference for anyone interested in how architecture is featured in the cinematic medium Scholars of architecture urban planning fine arts humanities social sciences and various design disciplines will also find the book refreshing

Overdrive Wim de Wit,Christopher James Alexander,2013 This is a fascinating and intelligently illustrated study of architectural innovation in Los Angeles From 1940 to 1990 Los Angeles rapidly evolved into one of the most populous and influential industrial economic and creative capitals in the world During this era the region was transformed into a laboratory for cutting edge architecture Overdrive examines these experiments and their impacts on modern design reframes the perceptions of Los Angeles dynamic built environment and amplifies the exploration of the city's vibrant architectural legacy The drawings models and images highlighted by Overdrive reveal the complex and often underappreciated facets of Los Angeles and illustrate how the metropolis became an internationally recognized destination with a unique design vocabulary canonical landmarks and a coveted lifestyle

**Tokyo Urbanism: From Hinterland To Kaiwai** Masami Kobayashi,2024-03-20 Arguably one of the most iconic mega cities in Asia Tokyo the capital of Japan plays an important economic and cultural role It has been featured in various media as a liveable city with a well developed public transport system Yet what international media coverage often misses out are its unique neighbourhoods and districts Known as kaiwai they are scattered in a mosaic from downtown Tokyo to its suburbs exemplifying a type of urbanism wholly unique to Asia and foreshadowing a future vision which suggests regional autonomy in a post COVID 19 world In this book the authors thoroughly investigate the city's multi layered spatial and sociocultural aspects introducing a side of Tokyo little known to the world at large Readers who are only familiar with Tokyo's depiction as an ultra modern city will appreciate the book's insights into the kaiwai phenomenon the pre modern

urban structure of Edo city and contemporary Tokyo's Asian urbanism including traditional community activities such as local festivals the formation of new communities by old and new residents and intimate community life using a network of alleys Combining urban planning sociological anthropological and architectural perspectives the book's interdisciplinary approach looks at Tokyo from the peripherical to the kawai level The Artist at Home Imogen Racz,Jill Journeaux,2024-01-11 Artists have worked from home for many reasons including care duties financial or political constraints or availability and proximity to others From the home studios of Charles and Ray Eames to the different photographic representations of Robert Rauschenberg's studio this book explores the home as a distinct site of artistic practice and the traditions and developments of the home studio as concept and space throughout the 20th and into the 21st century Using examples from across Europe and the Anglophone world between the mid 20th century and the present each chapter considers the different circumstances for working at home the impact on the creative lives of the artists their identities as artists and on the work itself and how sometimes these were projected and promoted through photographs and the media Key themes include the gendered and performative aspects of women practising at home collaborative studio communities of the 1970s 90s including the appropriation of abandoned spaces in East London and the effects of Covid on artistic practices and family life within the spaces of home The book comprises full length chapters by artists architects art and design historians each of whom bring different perspectives to the issues interwoven with short interviews with artists to enrich and broaden the debates At a time when individual relationships to home environments have been radically altered The Artist at Home considers why some artists in previous decades either needed to or chose to work from home producing work of vitality and integrity Tracing this long tradition into the present the book will provide a deeper understanding of how the home studio has affected the practices and identity of artists working in different countries and in different circumstances from the mid 20th century to the present The Publishers Weekly ,2008

**Shopping Malls and Public Space in Modern China** Nicholas Jewell,2016-03-03 China's rise as an economic superpower has been inescapable Statistical hyperbole has been accompanied by a plethora of highly publicized architectural forms that brand the regeneration of its increasingly globalized urban centres Despite the sizeable body of literature that has accompanied China's modernization the essence and trajectory of its contemporary cityscape remains difficult to grasp This volume addresses a less explored aspect of China's urban rejuvenation the prominence of the shopping mall as a keystone of its public spaces Here the presence of the built form most representative of Western capitalism's excess is one that makes explicit the tensions between China's Communist state and its ascent within the free market This book examines how these interrelationships are manifested in the culturally hybrid built form of the shopping mall and its role in contesting the public space of the modern Chinese city By viewing these interrelationships as collisions of global and local narratives a more nuanced understanding of the shopping mall typology is explored Much architectural criticism has failed to address the levels of meaning implicit within the shopping

mall yet it is a building type whose public popularity has guaranteed its endurance Consequently if architecture is to remain a relevant social art a more holistic understanding of this phenomenon will be indispensable to the process of adapting to globalizing forces This examination of Chinese shopping malls offers a timely and relevant case study of what is happening in all our cities today    **Quill & Quire** ,1994    Joyce in the Belly of the Big Truck; Workbook Joyce A. **Bedside Essays for Lovers (of Cities)** Daniel Solomon,2012-06-12 In this provocative collection of essays renowned architect Daniel Solomon delves into the complexities of what makes a city vibrant Acknowledging that a city is not a static thing he argues we need to pay more attention to nurturing what he calls continuous cities In such a city he says new buildings new institutions and new technologies don t rip apart the old and wreck it They accommodate they act with respect and they add vibrant new chapters to history without eradicating it Continuity he explains is the way to promote sustainability and contrary to what the advocates of modern architecture claim he insists that honoring the traditional ways of city building still provides a solid foundation for places to grow evolve be modern However fond you are of your city or however much you feel it needs improvement this short collection of essays offers an enticing vision of the future All of our cities have a past worth examining a richness of experience that can shape the future in wonderful surprising ways Solomon s prose is thought provoking and inspiring well worth keeping close by wherever you do your reading be it your bedside couch a park or on the metro    Books In Print 2004-2005 Ed Bowker Staff,Staff Bowker, Ed,2004    **Forthcoming Books**

Rose Arny,2001    **The New York Times Index** ,1987    **Books Ireland** ,2004    **Arts & Humanities Citation Index** ,1997    *The Emerald City and Other Essays on the Architectural Imagination* Daniel Willis,1999 In The Emerald City Dan Willis takes us on a flight of imagination that paradoxically never strays far from the most tangible even intimate subjects His essays range from the Tower of Babel to the Wizard of Oz from Christo to Christmas trees from the lightness of being to the weight of architecture This ultimately optimistic book suggests that architecture is as vital as ever It is tempting to say that our present cultural situation has rendered architecture nearly impossible if not unnecessary But it is also possible to look to what our lives at the turn of the millennium typically lack fulfillment spirituality a sense of belonging weight and to conclude that the ground for architecture has never been more fertile The texts intelligent and readable draw equally from literary sources architectural practice philosophical analyses pop culture and everyday experiences Willis s perspective as a writer architect artist and teacher informs his work his texts are at once reflective and proactive as they challenge readers to rethink their participation in the built environment Accompanying the text are the author s original illustrations which link the forms and forces surrounding architecture at the end of the twentieth century in novel thought provoking ways    *Clean Living Under Difficult Circumstances* Owen Hatherley,2021-06-22 How to make a fairer more just city From the grandiose histories of monumental state building projects to the minutiae of street signs and corner caf s from the rebuilding of capital cities to the provision of the humble public toilet Clean Living under Difficult Circumstances argues for the city as a socialist

project This essay collection spans a period from immediately before the 2008 financial crash to the year of the pandemic Against the business as usual responses to both crises Owen Hatherley outlines a vision of the city as both a venue for political debate and dispute as well as a space of everyday experience one that we shape as much as it shapes us Incorporated here are the genres of memoir history music and film criticism as well as portraits of figures who have inspired new ways of looking at cities such as the architect Zaha Hadid the activist and urbanist Jane Jacobs and thinkers such as Mark Fisher and Adam Curtis Throughout these pieces Hatherley argues that the only way out of our difficult circumstances is to imagine and try to construct a better modernity
